**Wheat Belly** Simon and Schuster

"Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs—nearly a century after Charles Fort's *Book of the Damned* was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"—Taken from Good Reads website.

**You Were Born Rich** Vintage Crime/Black Lizard

In "The Breakout Principle," the bestselling author of "The Relaxation Response" delivers the ultimate self-help principle—simple instructions to activate a powerful biological trigger that converts conflict and confusion into clarity and extraordinary performance, a state athletes refer to as "the zone."

*Doctor Proctor's Fart Powder: The End of the World. Maybe.* Open Road Media  
Valentine doesn't understand why his mum thinks farting is such a big deal, especially when she feeds him healthy fruits and vegetables that make him gassy. After all, everyone farts, don't they? One day, Valentine and Mum learn that the Queen is in town—and she's planning a visit to their home for tea! As they prepare for the royal arrival, the gassy little boy can't help but let his toots tootle and his poots pass. But when the Queen arrives, he'll make a startling discovery about his mum and get a resounding answer to a very important question: Does the Queen fart?

**Agnology** Stanford University Press

Nilly is new to the neighborhood, but he is quick to make friends: Doctor Proctor, an eccentric professor; and Lisa, who is teased by the twin terrors Truls and Trym. Nilly and Lisa help Doctor Proctor develop his latest invention, a powder that makes you fart. The powder makes Nilly and Lisa very popular at school when they sell it for fifty cents a bag. And they get revenge on Truls and Trym by giving them a dose of extra-strength fart powder that shoots them up into a tree. All is good farty fun. Until someone steals the industrial-strength fart powder -- which was supposed to make Doctor Proctor famous -- to use for evil purposes....

Whether readers are newcomers to natural foods or are already devotees, they will discover how easy it is to eat healthfully and happily when whole foods and plants are at the center of every plate.

**Jo Nesbo's Fart Powder Series** Clarkson Potter

**A NEW YORK TIMES NOTABLE BOOK OF 2018**

Shakespeare's dark and tragic play retold in a heart-pounding New York Times bestselling thriller from the author of *The Snowman* and *The Thirst*. Set in the 1970s in a run-down, rainy industrial town, Jo Nesbo's *Macbeth* centers around a police force struggling to shed an incessant drug problem. Duncan, chief of police, is idealistic and visionary, a dream to the townspeople but a nightmare for criminals. The drug trade is ruled by two drug lords, one of whom—a master of manipulation named Hecate—has connections with the highest in power, and plans to use them to get his way. Hecate's plot hinges on steadily, insidiously manipulating Inspector Macbeth: the head of SWAT and a man already susceptible to violent and paranoid tendencies. What follows is an unputdownable story of love and guilt, political ambition, and greed for more, exploring the darkest corners of human nature, and the aspirations of the criminal mind.

**Who Cut the Cheese?** Legare Street Press

Dave Ramsey explains those scriptural guidelines for handling money.

**Prominent Families of New York** Simon and Schuster

Includes a sneak peek of *Undoctored*—the new book from Dr. Davis! In this #1 New York Times bestseller, a renowned cardiologist explains how eliminating wheat from our diets can prevent fat storage, shrink unsightly bulges, and reverse myriad health problems. Every day, over 200 million Americans consume food products made of wheat. As a result, over 100 million of them experience some form of adverse health effect, ranging from minor rashes and high blood sugar to the unattractive stomach bulges that preventive cardiologist William Davis calls "wheat bellies."

According to Davis, that excess fat has nothing to do with gluttony, sloth, or too much butter: It's due to the whole grain wraps we eat for lunch. After witnessing over 2,000 patients regain their health after giving up wheat, Davis reached the disturbing conclusion that wheat is the single largest contributor to the nationwide obesity epidemic—and its elimination is key to dramatic weight loss and optimal health. In *Wheat Belly*, Davis exposes the harmful effects of what is actually a product of genetic tinkering and agribusiness being sold to the American public as "wheat"—and provides readers with a user-friendly, step-by-step plan to navigate a new, wheat-free lifestyle. Informed by cutting-edge science and nutrition, along with case studies from men and women who have experienced life-changing transformations in their health after waving goodbye to wheat, *Wheat Belly* is an illuminating look at what is truly making Americans sick and an action plan to clear our plates of this seemingly benign ingredient.

**Leopoldstadt** Simon and Schuster

"A powerfully disruptive book for disrupted times ... If you're looking for transformative ideas, this book is for you." KATE RAWORTH, economist and author of *Doughnut Economics* A Financial Times Book of the Year

Our planet is in trouble. But how can we reverse the current crisis and create a sustainable future? The answer is: DEGROWTH. Less is More is the wake-up call we need. By shining a light on ecological breakdown and the system that's causing it, Hickel shows how we can bring our economy back into balance with the living world and build a thriving society for all. This is our chance to change course, but we must act now.

"A masterpiece... Less is More covers centuries and continents, spans academic disciplines, and connects contemporary and ancient events in a way which cannot be put down until it's finished." DANNY DORLING, Professor of Geography, University of Oxford  
"Jason is able to personalise the global and swarm the mind in the way that insects used to in abundance but soon shan't unless we are able to heed his beautifully rendered warning." RUSSELL BRAND  
"Jason Hickel shows that recovering the commons and decolonizing nature, cultures, and humanity are necessary conditions for hope of a common future in our common home." VANDANA SHIVA, author of

*Making Peace With the Earth* "This is a book we have all been waiting for. Jason Hickel dispels ecomodernist fantasies of "green growth". Only degrowth can avoid climate breakdown. The facts are indisputable and they are in this book." GIORGIS KALLIS, author of *Degrowth* "Capitalism has robbed us of our ability to even imagine something different; Less is More gives us the ability to not only dream of another world, but also the tools by which we can make that vision real." ASAD REHMAN, director of War on Want "One of the most important books I have read ... does something extremely rare: it outlines a clear path to a sustainable future for all." RAOUL MARTINEZ, author of *Creating Freedom* "Jason Hickel takes us on a profound journey through the last 500 years of capitalism and into the current crisis of ecological collapse. Less is More is required reading for anyone interested in what it means to live in the Anthropocene, and what we can do about it." ALNOOR LADHA, co-founder of The Rules "Excellent analysis...This book explores not only the systemic flaws but the deeply cultural beliefs that need to be uprooted and replaced." ADELE WALTON

**Middle School Survival Kit** Simon and Schuster

An eBook boxed set of Jo Nesbo's Fart Powder series, featuring *Doctor Proctor's Fart Powder*, *Bubble in the Bathtub*, and *Who Cut the Cheese?*. In Dr. Proctor's Fart Powder, eleven-year-old Nilly moves to his new neighborhood in Oslo, Norway, and meets his neighbor, Doctor Proctor, an eccentric professor who invents wacky potions and powders—including an industrial strength fart powder that can send people to outer space. *Bubble in the Bathtub* features even more hijinks as Doctor Proctor has plans for a new invention. You see, he lost his true love years ago, when Juliette Margarine married an evil count. The good Doctor has never quite gotten over this, and he's going back to change the course of history. But when things go wrong, it's up to Nilly and Lisa to travel back in time to reunite the two lovebirds. In *Who Cut the Cheese?* Nilly, Lisa, and Doctor Proctor are too busy inventing things to watch TV, and everyone says they're missing out on the hot singing competition. But then Nilly and Lisa notice that their friends and family are acting really weird. And the only people acting weird...are the ones watching TV.

**The Magical Fruit** W. W. Norton & Company

Alternately poignant, uplifting, and laugh-out-loud funny, this is an enchanting tale of love, self-forgiveness, and the joyous discovery that it's never too late to become what you were meant to be. Stranded in Adelaide, South Australia, after the death of her former employer, Englishwoman Amanda Davenport is compelled by her rapidly dwindling resources to accept a position as governess on a sheep station in the wilds of the Australian outback. Frightened by the raw desolation she discovers there, Amanda is desperate to earn her passage home to England. Yet against her will, she finds herself irresistibly drawn to both the strange, haunting land and to the easy smile and rugged sensuality of the down-to-earth man who has made it his home. Struggling to bring up three irrepressible, motherless children on an isolated station plagued by all the hardships and dangers of the Flinders Ranges in the 1860s, Patrick O'Reilly thinks the last thing he needs in his life is a prim and proper English gentlewoman. But it isn't long before O'Reilly begins to suspect that Miss Davenport is not exactly what she seems. . . Rich with the memorable characters and flawless sense of time and place for which Candice Proctor is acclaimed, *SEPTEMBER MOON* is a heartwarming story of resilience and passion set against the harshly beautiful and untamed landscape of the Australian outback. . . a consummate storyteller." -Publishers Weekly " . . . one of the best romance writers in the business today!"

-The Literary Times  
From the original 1999 Random House edition: In this, her third novel, the multitalented author of *NIGHT IN EDEN* returns to the glorious setting of nineteenth-century Australia, to the ancient, primal vistas of the outback, to a land as untamed as a man's soul. . . Patrick O'Reilly loves life in the wilderness. All he needs is his land, his work, and the company of the children he adores. The last thing he wants is the prim and proper Englishwoman who arrives to care for his unruly children. Amanda Davenport seems unprepared for the harshness of the place O'Reilly calls home, and yet he finds himself drawn to this proud woman and the fire he knows exists beneath her refined exterior. Accepting a joy as governess is the only way Amanda can earn passage back to her beloved England and away from this country she hates—rugged, uncivilized, intoxicating, like Patrick O'Reilly himself. Despite her fears, Amanda gradually awakens to the shimmering heat of this wild primitive land, to the children she can't help but love, and to this magnificent man whose raw sensuality dares to expose her own undeniable passion. . .

**The Book of the Damned** Simon and Schuster

These two ideas are fundamental to the message of the Bible, and yet they are shockingly misunderstood and misapplied. Some take a literal approach to biblical law and adopt customs that make no sense in the modern world. Others think that the law has become irrelevant or, even worse, that it has been abolished and nailed to the cross. They hold this belief in spite of the plain statement by

---

Jesus that the written law would remain as long as heaven and earth last. This suggests that we need to find a new way of looking at biblical law, one that makes sense, that actually helps make life work in the 21st century. Law is about understanding God and his purpose for man. Covenant is closely related because it is about knowing God, personally, intimately, and about being in a relationship with him. Nothing is more central to the Christian relationship with God than the covenant we have with Jesus. In this covenant, you actually carry his name-you are family, with all the rights, privileges and obligations of a brother or a son. Law & Covenant will untangle mysteries and bring simple, understandable insights. Ronald Dart will take you deeper into the Word of God than you've gone before-to a higher logic of the law. He will add an interesting worldview that will make it hard for you to put this book down.

September Moon Simon and Schuster

New adventures await Doctor Proctor, Lisa, and Nilly as they try to protect Oslo, Norway, from invading aliens, enormous snakes in the sewers, seven-legged Peruvian sucking spiders, and sinister waffle irons.

Sally Mann Lampo

Taken against the Arcadian backdrop of her woodland summer home in Virginia, Sally Mann's extraordinary, intimate photographs of her children : Emmett, Jessie, and Virginia reveal truths that embody the individuality of her immediate family and ultimately take on a universal quality. Mann states that her work is "about everybody's memories, as well as their fears," a theme echoed by Reynolds Price in his eloquent, poignantly reflective essay accompanying the photographs in *Immediate Family*. With sublime dignity, acute wit, and feral grace, Mann's pictures explore the eternal struggle between the child's simultaneous dependence and quest for autonomy, the holding on, and the breaking away. This is the stuff of which Greek dramas are made : impatience, terror, self-discovery, self-doubt, pain, vulnerability, role-playing, and a sense of immortality, all of which converge in Sally Mann's astonishing photographs. A traveling exhibition of *Immediate Family*, organized by Aperture, opened at the Institute of Contemporary Art in Philadelphia in the fall of 1992. All of the photographs in *Immediate Family* were taken with an 8-by-10-inch view camera.

Supreme Court Appellate Division Third Department Random House

Cow and Owl are best friends. MOO HOO! They do everything together, like make music (TWO COO) and go trick-or-treating together (BOO! BOO!).
