**NATIONAL BESTSELLER** • The gripping story of Elizabeth Holmes and Theranos—one of the biggest corporate frauds in history—a tale of ambition and hubris set amid the bold promises of Silicon Valley, rigorously reported by the prize-winning journalist. With a new Afterword.

“ Chilling ... Reads like a thriller ... Carreyrou tells [the Theranos story] virtually to perfection. ”

—The New York Times Book Review In 2014, Theranos founder and CEO Elizabeth Holmes was widely seen as the next Steve Jobs: a brilliant Stanford dropout whose startup “ unicorn ” promised to revolutionize the medical industry with its breakthrough device, which performed the whole range of laboratory tests from a single drop of blood. Backed by investors such as Larry Ellison and Tim Draper, Theranos sold shares in a fundraising round that valued the company at more than \$9 billion, putting Holmes ’ s worth at an estimated \$4.5 billion. There was just one problem:

The technology didn ’ t work. Erroneous results put patients in danger, leading to misdiagnoses and unnecessary treatments. All the while, Holmes and her partner, Sunny Balwani, worked to silence anyone who voiced misgivings—from journalists to their own employees.

This biography of the Nazi propagandist is “a measured, scholarly account of a real monster” (Newsweek). Quite possibly the most dangerous and intelligent member of the Nazi hierarchy, Joseph Goebbels possessed a flair for propaganda, spectacle, and organization that ensured Hitler’s rise to power. As founder of the Reich Chamber of Culture, Gauleiter of Berlin, and architect of complex machinery of modern totalitarian propaganda, Goebbels is considered one of the most evil figures of the twentieth century, and it was through his understanding of the instruments of “public

enlightenment”—that is, lies and myth-building—that the dictatorship was created and maintained. Through interviews with his friends and family and with information from his own unpublished diary, a remarkable picture of Goebbels emerges in this insightful historical biography. “Manvell and Fraenkel have produced . . . biographies of Goebbels, Goering, Himmler, and the men who tried to kill Hitler in 1944. . . . To the best of my knowledge there are no better biographies in existence.” —The New York Review of Books “The authors have discovered a great deal about Goebbels’ early life [and] made good use of existing material.” —The New York Times
