5.0). It is comparable with document splitting for special purpose ledgers (FI-SL). Document splitting uses document splitting characteristics as account assignment objects to portray the dimensions. What is Document Splitting Concept in SAP? Document Splitting. If your configuration settings for document splitting are the same in your source and target systems you can replicate document splitting information in the initial load of documents and

open items as well as in ongoing replication. You must also make specific settings for document splitting in the Customizing activity Set up RFC Destination for Source Systems (Central Finance Central Finance: Target System Settings Set Up Systems Set up RFC Destination for Source Systems). SAP FICO: SAP New GL : DOCUMENT SPLITTING – Configuration Document Splitting —Overview

- New General Ledger (or new G/L) in the SAP ERP system offers

a powerful feature known as document splitting

- With document splitting, accounting line items are split according to specific characteristics

For example, Profit Center, Segment Document Splitting in New General Ledger | SAP Blogs Wizard 'Configure Document Splitting' is intended to help with setting up the customizing of document splitting. For that wizard it is not necessary that new g/l has been activated. Wizard 'Create Document Splitting Rule'

In this IMG

activity, you active document splitting. The splitting method used is that delivered by SAP as standard, which contains the splitting rules for the different business transactions. If this splitting method does not meet your requirements, you can first define and then select your own method in Customizing for document splitting.
