24 official documents relating to Richard Lyons' service in the United States Navy, plus a marriage certificate. The naval documents are dated during the period of Lyons service from 1860 to 1866, but many are stamped with 1899-1901 dates on the back, making it unclear whether these are original documents sent to him at the time, or were actually originated at those later dates.

Intended as a handbook and a guide to selecting, locating, and using appropriate primary and secondary resources, The Source also functions as an instructional tool for novice genealogists and a refresher course for experienced researchers. More than 30 experts in this field--genealogists, historians, librarians, and archivists--prepared the 20 signed chapters, which are well written, easy to read, and include many helpful hints for getting the most out of whatever information is acquired. Each chapter ends with an extensive bibliography and is further enriched by tables, black-and-white illustrations, and examples of documents. Eight appendixes include the expected contact information for groups and institutions that persons studying genealogy and history need to find. ""

Where to Find Records for Birth, Death, Marriage, and Divorce in Your State Or U. S. Territory Ancestry Publishing

The information provided in this book is for those users who want direct access to individual U.S. state and U.S. territory information. To use this valuable information, you must first determine the state or area where the birth, death, marriage, or divorce occurred, then turn to the corresponding page for your state or area. Here you will find the needed information to request the desired records. Included in this book is an "Applications Guideline" to help you with your record acquisition. Please follow the provided guidelines to ensure an accurate response to your request. Some reasons why you might need a birth certificate: Identification, enrollment of children into school, obtaining a passport, obtaining a social security card, employment and getting a driver's license, Why you might need a death certificate: One of the most important documents you need to settle the affairs of your loved one is a death certificate. The death certificate is the official legal record of death. It includes information about the person who died and about their cause of death. Insurance companies, the Social Security Administration, and other agencies may request certified copies of the death certificate as proof of death. Certified copies are printed on special paper that cannot be easily duplicated. Purpose of having a marriage license: Marriage licenses legalize and solidify the union between a couple. Most states will not provide marriage licensing in the case of proxy marriages, marriage between cousins, common-law marriages or same-sex marriages. A license will only be given to a couple if both parties are over the age of 18, or if both have obtained parental consent to marry if age 16 or 17. Some states may require blood testing or physical testing prior to providing a marriage license, to ensure that both parties are unrelated. The strict marriage license rules ensure that marriage is legal, based upon state laws, and thereby recognized by the state and federal government. Filing a marriage license creates an important legal document, which will become part of the public record. Legally, this allows spouses to receive certain government and employer benefits. Purpose of a divorce decree: A court decree that terminates a marriage; also known as marital dissolution, establishes the new relations between the parties, including their duties and obligations relating to property that they own, support responsibilities of either or both of them, and provisions for any children.
