1961-1971 Dodge Truck Engine Colors, Codes and Model ...

The label is located on the bottom in the rear of the engine on the passenger side, you will see the last 8 digits of the

VIN code. This allows you to determine if there were any changes with the car engine or not. The Dodge truck VIN decoder will show you the type of the body, so you can check this information with your eyes. Dodge Sample VIN
Dodge Engine Id Codes
RAM trucks were presented in 1981 which was the year when the first VIN codes started to be assigned. Despite the fact that Dodge RAM was the symbol of the Dodge cars for a long time, the new vehicles became to the taste of the drivers soon after

the first manufacture. If you want to feel a true spirit of the drive and be sure that your car is sold legally, you should learn what a RAM VIN ...

Flathead Six
Engine Numbers
- Dodge Power
Wagon

I have an engine casting#2532630 on a 66, charger i bought any info about this would be appreciated.
Don Says:
September 7th, 2007 at 7:18 pm.
I recently purchased a 1964 dodge Dart with a 318 motor. The motor is not original and the id # is 4104230 - 318-13. Above it states that is is a race engine.
Can you tell me what that means?

Mopar 318 Engine
Identification | It Still
Runs

Six cyl. 251 cu.in. engine (stamped R-25) is a PREMIUM standard engine for the W500 and as extra equipment for the D500 and S500 models, up to approximately 9-1-62. Eight cyl. 273 cu.in. engine is used for A100 from approximately 1965. Eight cyl. 318 cu.in. engine with Mechanical Lifters is standard for D100, D200, D300, W100 and W200 models.

Mopar Engine
Casting
Numbers

A Engines: The "wide block" or 1957-66 318 "A" engine. This engine faded

away as the muscle car era came into full swing. This engine faded away as the muscle car era came into full swing. LA Engines: The small block "LA" engines which include 273, 340, 360, and the 1967 to present 318 (which has nearly nothing in common with the 1958-66 318 "A" engine).

On page 198 of the Mopar engines manual, (the 8th edition) in the "B-RB Engines (block) section, it states: "The 1976-1977-1978 blocks for the 400 and 440 are a thin wall casting design. ... (E 440 code on the ID pad), or approx

mid '68 casting date. This is an improvement that was instituted around this time and lasted until the end of ...
Dodge Truck Vehicle Identification Number (VIN) Decoder
A number follows. The number "8," for example, identifies the engine as manufactured in 1968. A "4W" identifies the 318 as assembled at the Windsor, Ontario, plant in 1974. There may be just a single letter to the left of "318," which is the assembly plant code, or the last number in the year of the engine.
