A pioneer choreographer in modern American dance, Anna Sokolow has led a bewildering, active international life. Her meticulous biographer Larry Warren once looked up Anna Sokolow in a few reference books and found that she was born in three different years and that her parents were from Poland except when they were in Russia, and found many other inaccuracies. Drawing on material from nearly 100 interviews, Larry Warren has created a fascinating account and assessment of the life and work of Anna Sokolow, whose nomadic career was divided between New York, Mexico, and Israel. Setting her work on more than 70 dance companies, Anna Sokolow not only pioneered the development of a personal approach to movement, which has become part of the language of contemporary dance, but also created such masterpieces as *Rooms*, dealing with loneliness and alienation, and *Dreams*, which concerns the inner torment of victims of the Nazi Holocaust.

p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial} The Jeep CJ, the icon that started it all, is the most popular off-road vehicle of all time. The look, style, and functionality of the CJ made it instantly popular and recognizable the world over, in no doubt partly due to its military presence in World War II. The Jeep Wrangler platform had the difficult task of replacing the extremely popular CJ platform. Outwardly similar in appearance, the YJ, TJ, and JK that followed all had significant design improvements, as can be expected when a platform has a life span of more than five decades. The YJ was the first Chrysler release after it purchased AMC in the mid-1980s, and it was aimed at taming the original CJ for more comfort and, arguably, a larger audience. The TJ that followed next was an evolutionary update, significant in that it featured a coil spring suspension and the celebrated return of round headlights, for a more traditional look compared to the square lights of the YJ. In Jeep TJ 1997-2006: How to Build & Modify, everything you need to know about how to modify your TJ for off-road use is covered. Beginning with why you should choose a TJ for modification, Jeep expert Michael Hanssen takes you through all the different systems needing modification, including engine modifications and swaps, transmission swaps, transfer case and driveshafts modifications, axles and traction systems, suspensions and lifts, wheels, tires, brakes, chassis protection, electrical, and winches. Included in every chapter are step-by-step modification instructions to help walk you through the process. If you want to build a TJ for serious off-road trail use, or you just want a capable and great-looking Jeep for around town, this book has you covered.

In *Comeback*, Pulitzer Prize-winners Paul Ingrassia and Joseph B. White take us to the boardrooms, the executive offices, and the shop floors of the auto business to reconstruct, in riveting detail, how America's premier industry stumbled, fell, and picked itself up again. The story begins in 1982, when Honda started building cars in Marysville, Ohio, and the entire U.S. car industry seemed to be on the brink of extinction. It ends just over a decade later, with a remarkable turn of the tables, as Japan's car industry falters and America's Big Three emerge as formidable global competitors. *Comeback* is a story propelled by larger-than-life characters -- Lee Iacocca, Henry Ford II, Don Petersen, Roger Smith, among many others -- and their greed, pride, and sheer refusal to face facts. But it is also a story full of dedicated, unlikely heroes who struggled to make the Big Three change before it was too late.

"I have always had faith that the best writers will rise to the top, like cream, sooner or later, and will become exactly as well-known as they should be--their work talked about, quoted, taught, performed, filmed, set to music, anthologized. Perhaps, with the present collection, Lucia Berlin will begin to gain the attention she deserves." -Lydia Davis

A MANUAL FOR CLEANING WOMEN compiles the best work of the legendary short-story writer Lucia Berlin. With the grit of Raymond Carver, the humor of Grace Paley, and a blend of wit and melancholy all her own, Berlin crafts miracles from the everyday, uncovering moments of grace in the Laundromats and halfway houses of the American Southwest, in the homes of the Bay Area upper class, among switchboard operators and struggling mothers, hitchhikers and bad Christians. Readers will revel in this remarkable collection from a master of the form and wonder how they'd ever overlooked her in the first place.
