Learn how to: Master the basic skills and common procedures every decoy needs. Read dogs accurately through seven key factors. Stimulate and reward useful forms of K9 aggression. A good decoy is a K9 trainer's most valuable tool. A good decoy can make a poor dog better, a mediocre dog good, and a good dog excellent. A poor decoy, on the other hand, can have devastating effects, ruining even a good dog. Stephen Mackenzie, professor of animal science and deputy sheriff with more than 30 years' experience training and handling police dogs, shows you how to master the art of being a decoy in this revised and updated new edition. You'll learn how to communicate effectively with your canine partner and how to stimulate specific types of aggression in the dog in a safe, positive way. This guide is essential reading for all decoys, including both instructors and students. It will improve the effectiveness of all K9 personnel, handlers, and trainers. For generations, The Koehler Method of Dog Training has been a beacon of wisdom for dog owners seeking effective techniques to build a strong bond with their furry companions. William Koehler's approach, rooted in respect for dogs' intelligence, remains as relevant today as it was when the book first graced the shelves. Koehler believed that dogs could make choices and be held accountable for their behavior. His method follows the pattern of Action Memory Desire: dogs act, remember the outcomes, and form desires based on those experiences. Correcting behavior becomes fair, reasonable, and expected once the training has been successfully imparted. In this classic guide, you'll find practical guidance for creating a well-behaved and happy canine companion. From basic obedience to advanced skills, The Koehler Method

covers it all. Whether you're a seasoned dog owner or a first-time puppy parent, discover the joy of training your dog using a method that respects their intelligence and fosters a lifelong partnership.

Over 3,200 total slides and pages ... INTRODUCTION: Dogs have served in active service at the sides of their handlers for decades. They have been heroes, showing bravery under fire, saving lives (often losing their own), and bringing comfort to the injured and infirmed. The first recorded American use of military dogs was during the Seminole War of 1835 and again in 1842. In Florida and Louisiana, the Army used Cuban bred bloodhounds for tracking. During the US Civil War, dogs were used as messengers, guards, and unit mascots. The Army Quartermaster Corps began the US Armed Forces' first war dog training during World War II. By 1945, they had trained almost 10,000 war dogs for the Army, Navy, Marine Corps, and Coast Guard. Fifteen war dog platoons served overseas in World War II. Seven platoons saw service in Europe and eight in the Pacific. MWDs were trained at Fort Carson, Colorado, organized into scout dog platoons, and used in the Korean conflict for sentry duty and support of combat patrols. In 1957, MWD training moved to Lackland Air Force base (LAFB), Texas, with the Air Force managing the program. Throughout the Vietnam Conflict, the Military Police Corps used dogs with considerable success. Most of these were sentry dogs used to safeguard critical installations such as ports and airfields. A new dimension in canine utilization was realized when marijuana detector dog teams were trained and deployed to assist military police in suppressing illicit drug traffic. Sentry and marijuana detector dog teams were then deployed worldwide in support of military police. An important outgrowth of the conflict was the development of canine research and development efforts. These ongoing efforts were able to initiate the first steps toward developing a more intelligent and stronger military dog, training dogs to detect specific drugs and explosives, developing multiple-purpose dogs, and employing tactical dogs by electronic remote control. In the 1990s and early 2000s, MWDs were deployed around the globe in military operations such as Just Cause, Desert Shield and Desert Storm, Uphold Democracy, and Enduring Freedom and Iraqi Freedom. These teams were effectively utilized to enhance the security of critical facilities and areas, as well as bolster force protection and antiterrorism missions, allowing commanders to use military police

If you'd like your dog to listen to ALL of your commands and to stop annoying behaviors... using simple, proven techniques... training only 10 minutes a day, then this book will show you how. Here's the story... I don't know about you, but having a dog can sometimes be downright confusing. Sometimes frustrating. Especially if your dog pulls on leash, jumps on everyone (including you), steals your dinner off the table and doesn't come when called. To make matters worse, much of the information about dog training is conflicting. A confused dog owner does not know who to listen to. I know because I got involved with dog training with my first dog who was a real handful. I knew nothing about housetraining, how to stop chewing, jumping or pulling on leash and everything I tried seemed to make it worse. Everywhere I turned I got different advice. Some years ago, J. Allen Boone said: "There's facts about dogs, and then there's opinions about them. The dogs have the facts, and the humans have the opinions. If you want the facts about the dog, always get them straight from the dog. If you want opinions, get them from humans." Over the past 20+ years, I have studied thousands of dogs for the answers and have compiled it all in my newest book. And that's just the beginning... Here are some tips that you'll find in the book: » How To Avoid 7 Common Dog Training Mistakes. (Besides the long term problems your dog can develop if you do any of these mistakes, there are major consequences for you if make any of these mistakes.) » "Keep It Simple Student" - Applies To Teaching Come When Called. (And how you get much better results when you follow some simple and effective steps.) » Dog Doesn't Come When Called? You Are NOT Alone. (The #1 reason why dogs don't come when called and how to avoid it.) » How The Man With A Stolen Brain Reveals The "Secret" To Dog Ownership. (True story of a famous French writer who revealed the "Secret" over 200 years ago.) » The One Thing YOU Need To Do If Your Dog Is Afraid Of Thunder Or Loud Noises. (And how your actions could make this behavior worse.) This is just some of what you'll learn in my newest book,

A good decoy needs to be an expert in canine communication, and needs to know how to use this language to stimulate aggression in the dog. This book explains, step by step, how to understand the canine paralanguage and how to use your own body to communicate with the dog. It then explains the different types of natural dog aggression and how to use its own language to trigger the useful types without being abusive to the dog. Decoys and Aggression also describes drills designed to develop skill in the decoy. Some are designed to be conducted without dogs until the human demonstrates enough body control to work with a live animal without injuring the dog or himself. This book is the first to combine inter-species communication skills with the specific types of aggression known to be useful to police dog trainers. As such, it is essential reading for all decoys, instructors and students alike, as well as for K9 personnel, handlers, and trainers.
