Stock Dog Training Manual Brush Education
I wrote this book to establish or to bring back the bond between the dog and the handler. This book is designed to look into the personality of the dog and determine what training methods work best for both the handler and the dog. Once the reader understands how their dog learns and how to use the training techniques combined with the psychological and social needs of the dog, they are both on the path to a better relationship. A 12-week training program has been set up to guide the reader step by step to having a better dog. I hope you enjoy reading my book.

Training Your Dog

All kinds of dogs have a number of hard-wired traits bred into them. Hounds love to follow their noses, Retrievers love to fetch and Herding dogs love to herd. With few exceptions, these are pretty harmless activities and don't stand in the way of training. Terriers, however, were bred to hunt and

kill vermin independently, digging underground and barking excitedly, almost impervious to pain. Let's see...just a few challenges to overcome in training: strong prey drive, independence, feistiness, digging, barking, the list goes on. In Terrier-Centric Dog Training, author Dawn Antoniak-Mitchell takes up the challenge to help terrier owners train their dogs by making sure they understand the instincts bred into terriers and what the most effective training and management techniques are to use when working with a "natural born killer." You can train your terrier, but just don't let him loose off-leash in a park full of squirrels!

Whether you're searching for drugs or a missing person, K9 Scent Training will improve your K9 team's capabilities in the field. Use proven techniques to train your dog for: Scent identification line-ups to indicate a scent connection between crime-scene evidence and a suspect. Tracking along a wide variety of track types, including the cold track, the broken-off track and tracks that run over or under cross-

tracks. Detection work for searches in buildings, vehicles, open terrain and more. In this must-have guide for SAR teams and police K9 trainers and handlers, Dr. Resi Gerritsen and Ruud Haak present everything you need to know to build or improve a scent training program. Scent training involves high-stakes work, and in the case of a search for a missing person, the right training for your K9 can mean the difference between life and death. Beginning with the science behind odors and how dogs perceive them, Resi and Ruud show you how to harness that knowledge to eliminate training problems and maximize your dog's potential. You'll learn how to start scent training for young dogs using simple exercises before building up to more complex training. Finally, using techniques they've perfected over decades, Resi and Ruud share their specialized, step-by-step programs for advanced scent identification training and tracking. A comprehensive guide to puppy training by Mark Vette, of Pound Pups to Dog Stars fame. Mark's first book Dog Zen had just 40 pages on puppies - this book goes into full detail about all ages and stages, and how to do the right thing at the right time. Following a quick look at the role of pups within the wolf pack, and how dogs evolved from wolves, this book gives a day-by-day, week-by-week guide to the fundamentals of training your puppy and building a happy lifelong bond between the two of you. Mark stresses the importance of the formative period (1-4 months) to instill good habits in your puppy, then shows you exactly how to do so and when to teach each skill. Includes chapters on choosing a puppy, forming a bond with your pup, training foundations (equipment and techniques), basic commands (like sit, heel and stay), what to train in which weeks of age, house training, socialisation, teaching them not to bite or indulge in continual barking, jumping up or other anti-social behaviours. It is a detailed and practical guide combining the latest cognitive science with modern, loving, training techniques. Illustrated with irresistible puppy photos (by renowned animal photographer Rachael McKenna), plus down-to-earth how-to shots of the training methods.
