Jeffrey Moussaieff Masson's groundbreaking bestseller, *When Elephants Weep*, was the first book since Darwin's time to explore emotions in the animal kingdom, particularly from animals in the wild. Now, he focuses exclusively on the contained world of the farm animal, revealing startling, irrefutable evidence that barnyard creatures have feelings too, even consciousness. Weaving history, literature, anecdotes, scientific studies, and Masson's own vivid experiences

observing pigs, cows, sheep, goats, and chickens over the course of five years, this important book at last gives voice, meaning, and dignity to these gentle beasts that are bred to be milked, shorn, butchered, and eaten. Can we ever know what makes an animal happy? Many animal behaviorists say no. But Jeffrey Masson has a different view: An animal is happy if it can live according to its own nature. Farm animals suffer greatly in this regard. Chickens, for instance, like to perch in trees at night, to avoid predators and to nestle with friends. The obvious conclusion: They cannot be happy when confined twenty to a cage. From field and barn, to pen and coop, Masson bears witness to the emotions and intelligence of these remarkable farm animals, each unique with distinct qualities. Curious, intelligent, self-reliant—many will find it hard to believe that these attributes describe a pig. In fact, there is much that humans share with pigs. They dream, know their names, and can see colors. Mother cows mourn the loss of their calves when

their babies are taken away to slaughter. Given a choice between food that is nutritious or lacking in minerals, sheep will select the former, balancing their diet and correcting the deficiency. Goats display quite a sense of humor, dignity, and fearlessness (Indian goats have been known to kill leopards). Chickens are naturally sociable—they will gather around a human companion and stand there serenely preening themselves or sit quietly on the ground beside someone they trust. For far too long farm animals have been denigrated and treated merely as creatures of instinct rather than as sentient beings. Shattering the abhorrent myth of the “dumb animal without feelings,” Jeffrey Masson has written a revolutionary book that is sure to stir human emotions far and wide. **Dogs Have the Strangest Friends Rowman & Littlefield** In this ground-breaking and highly controversial book, Jeffrey Moussaieff

Masson attacks the very foundations of modern psychotherapy from Freud to Jung, from Fritz Perls to Carl Rodgers. With passion and clarity, *Against Therapy* addresses the profession's core weaknesses, contending that, since therapy's aim is to change people, and this is achieved according to therapist's own notions and prejudices, the psychological process is necessarily corrupt. With a foreword by the eminent British psychologist Dorothy Rowe, this cogent and convincing book has shattering implications.

He's one of America's most recognizable and acclaimed actors—a star on Broadway, an Oscar nominee for *The Aviator*, and the only person to ever win Emmys for acting, writing, and directing, during his eleven years on *M*A*S*H*. Now Alan Alda has written a memoir as elegant, funny, and affecting as his greatest performances. "My mother didn't try to stab my father until I was six,"

begins Alda's irresistible story. The son of a popular actor and a loving but mentally ill mother, he spent his early childhood backstage in the erotic and comic world of burlesque and went on, after early struggles, to achieve extraordinary success in his profession. Yet *Never Have Your Dog Stuffed* is not a memoir of show-business ups and downs. It is a moving and funny story of a boy growing into a man who then realizes he has only just begun to grow. It is the story of turning points in Alda's life, events that would make him what he is—if only he could survive them. From the moment as a boy when his dead dog is returned from the taxidermist's shop with a hideous expression on his face, and he learns that death can't be undone, to the decades-long effort to find

compassion for the mother he lived with but never knew, to his acceptance of his father, both personally and professionally, Alda learns the hard way that change, uncertainty, and transformation are what life is made of, and true happiness is found in embracing them. *Never Have Your Dog Stuffed*, filled with curiosity about nature, good humor, and honesty, is the crowning achievement of an actor, author, and director, but surprisingly, it is the story of a life more filled with turbulence and laughter than any Alda has ever played on the stage or screen.

Aleister Crowley's *The Book of Lies* is an important and complex work of occultism. Deciphering its many layers of hidden meaning requires a little patience and more than a beginner's knowledge of Thelema. For those interested in passing beyond the initiate stage, the reward offered by a deeper understanding of this challenging text is well worth the effort. This new 2018 edition of *The Book of Lies* from Kismet Publishing restores all of Crowley's original text, including the important keys, sigils and diagrams often omitted from reprints.

The Book of Lies Untreed Reads

This magnificent novel transports readers to the world of a prominent Boston family summering on the New Hampshire coast, and to the social orbit of a spirited young woman who falls into a passionate, illicit affair with an older man, with cataclysmic results. The Fortune Rock's Quartet collects four of Anita Shreve's most beloved novels- *Fortune's Rocks*, *The Pilot's Wife*, *Sea Glass*, and *Body Surfing*-for the first time. The novels highlight Shreve's ability to illuminate women's lives across different eras and share a delightful detail: they are all set in the same coastal New England home, one that has inspired Shreve for over a decade. Any house with age to it can tell a million stories about the families who have lived there, and Shreve has been quoted as saying, "You could base an entire life's work on the people who come in and out of a house." *Fortune's Rocks* depicts a spirited young woman at the turn of the 20th century who falls into a passionate, illicit affair with an older man. In *Sea Glass*, a young couple's new marriage is rocked

to the core by the 1929 stock market crash. *The Pilot's Wife* brings us to the present day, where Kathryn is unprepared for the late-night knock that lets her know her husband has been killed in a plane crash. Sydney, the heroine of *Body Surfing* has already been once divorced and once widowed by the age of 29, and finds the fragile existence she has rebuilt for herself threatened when two brothers vie for her affections. "There's something addictive about Shreve's tales," according to USA Today, and this quality is on full display in the critically acclaimed novels of *The Fortune Rock's Quartet*. No one writes more compellingly than Anita Shreve about marriage, family, the depths of our strength and resolve, and the supreme courage that it takes to love.

Pru Marlowe isn't your ordinary animal psychic. A tough girl on the run from her own gift, Pru left the big city to return to her picturesque Berkshires hometown looking for a little peace. Too bad that her

training as an animal behaviorist got her mixed up with Lily, a rescue dog, and Charles, her person. Now Charles is dead, and Lily looks good for it. After all, Lily is a pitbull, a fighting-ring dropout, and way too traumatized to give Pru a clear picture of what she has witnessed. But Pru knows something about bad girls trying to clean up, and, with a sense of justice strong enough to overcome her dislike of human society, she takes the case. Listening to the animals, Pru picks up clues - and learns there are secrets in the pretty little town that make murder look simple. Unable to tell anybody about her psychic abilities, uncertain at times about her own sanity, Pru comes to realize that if she clears Lily, she'll likely become the prime suspect - or the next victim. While the only creature she can totally trust is her crotchety tabby Wallis, Pru's got to uncover the real killer - and find a way to live with her gift - before the real beasts in the town savage her and those she has come to love. The first in the Pru Marlowe "pet noir" series.

I Like Big Books and I Cannot Lie Delta This national bestseller exploring the complex emotional lives of animals was hailed as "a masterpiece" by Elizabeth

Marshall Thomas and as "marvelous" by Jane Goodall. The popularity of *When Elephants Weep* has swept the nation, as author Jeffrey Masson appeared on Dateline NBC, Good Morning America, and was profiled in *People* for his groundbreaking and fascinating study. Not since Darwin's *The Expression of Emotions in Man and Animals* has a book so thoroughly and effectively explored the full range of emotions that exist throughout the animal kingdom. From dancing squirrels to bashful gorillas to spiteful killer whales, Masson and coauthor Susan McCarthy bring forth fascinating anecdotes and illuminating insights that offer powerful proof of the existence of animal emotion. Chapters on love, joy, anger, fear, shame, compassion, and loneliness are framed by a provocative re-evaluation of how we treat animals, from hunting and eating them to scientific experimentation. Forming a complete and compelling picture of the inner lives of animals, *When Elephants Weep* assures that we will never look at animals in the same way again.

Dogs Never Lie About Love Untreed Reads He was the rising star of psychoanalysis, an intimate associate of Anna Freud and Kurt Eissler, a member of the Freudian "inner

circle" with unrestricted access to the Freud Archives. And then Jeffrey Moussaieff Masson threw it all away because he dared to break the psychoanalytic community's deepest taboo: he told the truth in public. As he unmaskes the pretensions and abuses of this elite profession, Masson invites us to eavesdrop on the shockingly unorthodox analysis he was subjected to in the course of his analytic training. But the more prestige Masson attained, the more he came to doubt not only the integrity of his colleagues, but the validity of their method. In the end, he blew the whistle-fully aware of the personal and professional consequences. With wit, wonder, and unflinching candor, Masson brilliantly exposes the cult of psychoanalysis and recounts his own self-propelled fall from grace. A sensation when it first appeared, *Final Analysis* is even more provocative and engrossing today. Written with passion and humor, this is the book that revealed a revered profession for what it was-and launched Masson on his true career.

"*The Animals Never Lie*" is a collection of intriguing case reports from Dr. Fox's holistic veterinary practice that will inspire and amaze you. Many times, alternative medical therapies are sought after an animal hasn't responded to conventional medicine or when it has been given a poor prognosis from a

chronic disease. Animals cannot fake or pretend a response to treatment, whatever method of therapy is chosen. Oftentimes, when a product from nature is offered, the animal instinctively "knows" what it needs and readily accepts it. There is no prejudice or bias where animals are concerned: the animals never lie. You'll be astonished at the animals' resiliency and strong will to persevere as you read through these stories of spinal injury, severe allergies, chronic illness, cancer, etc. All of the case reports have been "translated" into easy-to-understand language so non-practitioners can easily read them.

Dogs Never Lie about Love Ballantine Books

“I did not want to fail, because the stakes were too high. After all, I was after nothing less than the secret of human harmony.” The challenge that bestselling author Jeffrey Moussaieff Masson set for himself was formidable: to create a true interspecies peaceable kingdom within his own household. He hoped to learn if several different species—some, natural enemies—raised together from an early age could live peacefully side by side. So he took into his home seven young animals—a kitten,

a rabbit, two rats, two chickens, and a puppy—and set about observing the whole process of socialization (or non-socialization) from the very beginning. The initial results were mixed. Tamaiti, the kitten, made herself instantly comfortable, but Hohepa, the Flemish giant rabbit, remained inscrutably reserved. Kia and Ora, the rats, slept all day and became active at night. Moa and Moana, the Polish frizzle chickens, bonded with each other but to no one else. Mika, the stray pup, barked much too much. But as the hours and days passed in this never-before-attempted environment, the animals began to change in startling ways, as Masson wondered which animals would bond, and which would recoil from one another? Can animals, including humans, truly change when direct experience tells them it’s safe to do so? Would the experiment end in triumph, or in tragedy? Raising the Peaceable Kingdom poses universal questions we’ve all had about relationships, social strife, and peaceful coexistence. In its intimations of the potential for planetary

harmony, this elegantly written book is a work of major significance. As a unique account of life in an interspecies community, it offers unmitigated enchantment, joy, and delight.

Jeffrey Moussaieff Masson's "marvelous" (Jane Goodall) New York Times bestseller, *When Elephants Weep*, made us re-evaluate the emotional lives of animals. And in his follow-up New York Times bestseller, *Dogs Never Lie About Love*, Masson reflected with "intelligence and originality" (Los Angeles Times Sunday Book Review) on the emotional world of dogs. Now, in *The Emperor's Embrace*, Masson offers a remarkable look at one of the most fulfilling roles in the animal world: fatherhood. With fascinating insight, impeccable research, and captivating writing, controversial psychoanalyst Jeffrey Masson, a new father himself, introduces us to the world's best dads. He takes us to such places as Antarctica, as he explores how

emperor penguin fathers incubate the eggs of their young by carrying them around on their feet for two months, nestled beneath a special brood pouch. And he tells us how, once the babies hatch, the fathers snuggle the babies on their feet until the mother returns from her time at sea, feeding them a special milk-like substance until her arrival. Masson, a superb storyteller, showcases the extraordinary behavior of outstanding fathers, heroes among animals, including: the wolf -- and why wolves make good fathers and dogs don't the beaver, who encourages his young to cling to his tail as he navigates through ponds the sea horse, the only male animal that gives birth to its young the marmoset, the South American monkey who carries his babies for the first two years of their lives wherever he goes. Masson also examines nature's worst fathers: lions, langurs, bears -- and humans. He shows that when a father does care for his young, as with the beaver, we immediately look for a biological and not an emotional explanation. But Masson demonstrates

that for these animals, as with humans, fatherhood is a profound, all-encompassing experience. Groundbreaking, compelling, inspirational, Masson's unique look at one of nature's most venerable institutions takes us to animal habitats around the world, yet always returns to the heart. For animal lovers, fathers, mothers, sons, and daughters everywhere, *The Emperor's Embrace* is a book that will forever change our perceptions of parenthood and family love.

Steven Kotler was forty years old, single, and facing an existential crisis when he met Lila, a woman devoted to animal rescue. "Love me, love my dogs," was her rule, and Steven took it

to heart. Spurred to move by a housing crisis in Los Angeles, Steven, Lila - and their eight dogs, then ten, then twenty, and then they lost count - bought a postage-stamp-sized farm in Chimayo, New Mexico. *A Small Furry Hope* chronicles their adventures at Rancho de Chihuahua, the sanctuary they created for their pack with special needs: the very old, the very sick, and, as Kotler says, "the really retarded." An insider look at the culture of dog rescue, *A Small Furry Prayer* weaves personal experience, and scientific inquiry into a fast-paced, fun-filled narrative that explores what it means to devote one's life to the furry and the four-legged. Along the way, Kotler combs through every aspect of canine-human relations, from long human history with dogs to brand new research into the neuroscience of canine companionship, in the end discovering why living in a world made of dog may be the best way to uncover the truth about what it really means to be human.
