learning the right editing techniques for producing and sharing beautiful digital photography. Photoshop Elements 4: The Missing Manual covers the Windows version of the software only. When we published the book, there was no Mac version of the software (as there is now), and for various reasons, we've been unable to update this edition to include the Mac version.

Nonetheless, if you're on a Mac, you can use this book. Just substitute Command for Ctrl, and Option for Alt whenever you see keystroke shortcuts, and about 98 percent of the Editor functions will work the same. The sections on the Organizer only apply to Windows because the Mac version has no Organizer.
