Video is the Internet these days and as the growing trend toward viewing video on mobile devices increases too, the attention is turning toward creating a good user experience for downloading and viewing that video. One of the keys to this is delivering video in the correct format with the proper compression for that delivery. Real World Video Compression is one of the first books on this topic to demystify the various approaches to compression. It begins by describing the basic concepts of video compression, explains why you might choose a particular compression tool over another, and covers important workflow practices. After the groundwork is laid, readers will learn how to compress their video according to the specific requirements of

their projects and will learn some best practices by following the author's own tips and recipes. Experts in the field lend their own solutions in several sidebars throughout the book, making this a valuable learning tool for anyone learning to encode video, whether they are bloggers, DVD authors, video editors, or students. Contents at a Glance Chapter One: Understanding Video and Audio. Chapter Two: The Language of Compression Chapter Three: Best Practices Chapter Four: Preprocessing Interview with a Compressionist: John Howell Chapter Five: Compression Tools Interview with a Compressionist: Nico Puertollano Chapter Six: Compressing for DVDs Interview with a Compressionist: Ben Waggoner Chapter Seven: Compressing for the Web Interview with a Compressionist: Jim Rohner Chapter Eight: Compressing for Mobile Interview with a Compressionist: Ryanne Hodson Chapter Nine: Compressing for Set-Top Boxes Interview with a Compressionist: Andy Beach "In the highly accessible REAL WORLD VIDEO COMPRESSION, Andy Beach illuminates the dark-art of encoding and provides candid insight from working professionals. Twenty-five years after the original radio series of The Hitchhiker's Guide to the Galaxy exploded into the public consciousness, the further exploits of its bewildered hero Arthur Dent were finally adapted for radio by Dirk Maggs, in part using drafts written by Douglas Adams before his death. The resulting fourteen completely new episodes were produced by Above the Title Productions and broadcast on BBC Radio 4, with nearly all of the original cast reunited for recording. These scripts brilliantly bring to life the last three books in Adams' perennially popular Hitchhiker series: Life, the Universe and Everything; So Long, and Thanks for All the Fish; and Mostly Harmless. Dirk Maggs supplies notes which highlight original Adams material and explain how the cast, special effects and music were directed. The scripts are introduced by Simon Jones, who played Arthur Dent in both the original and the recent radio series, as well as in The Hitchhiker's Guide to the Galaxy television series. Douglas Adams first conceived The Hitchhiker's Guide to the Galaxy for radio and it is an honour to his memory that all five Hitchhiker novels have now been adapted for this medium. These scripts exemplify the freshness of perspective, humour and perspicacity that epitomize the work of Douglas Adams. They will be loved by fans and those new to Hitchhiker's alike.
