Most American Indian reservations are islands of poverty in a sea of wealth, but they do not have to remain that way. To extract themselves from poverty, Native Americans will have to build on their rich cultural history including familiarity with markets and integrate themselves into modern economies by creating institutions that reward productivity and entrepreneurship and that establish tribal governments that are capable of providing a stable rule of law. The chapters in this volume document the involvement of indigenous people in market economies long before European contact, provide evidence on how the wealth of Indian Nations has been held hostage to bureaucratic red tape, and explains how their wealth can be unlocked through self-determination and sovereignty.

Journalist Michael Wilde—his world recently shattered by tragedy—has come to the South Pole looking for solace and a new lease on life. But what he finds on a routine dive in the polar sea is something else entirely: the bodies of a young man and a young woman, bound with chains and sealed forever in a block of ice. Beside them is an ancient chest filled with a sinister cargo. Wilde's search to unravel the mystery of this doomed couple will lead from the battlefields of the Crimean War to the unexplored depths of the Antarctic Ocean, where an age-old curse survives to this day. And as the ice around the lovers begins to melt, Wilde will witness what may be a miracle—or a nightmare—in the making. What is dead, it turns out, is not always gone.
