The photos in this edition are black and white. The Trans Am and Firebird were distinctly different than their cousin, the Chevy Camaro, and many Trans Am and Firebird models became stand-out muscle cars of their era. In fact, when the high-performance wars in Detroit subsided in the early 1970s, the Trans Am remained as the sole surviving muscle car. Some second-generation Pontiac F-Body cars are affordable while others are extremely rare and valuable. In particular, the 1970-1974 Pontiac Super Duty Trans Ams, 1970-1973 Firebird Formulas, and 1976 Firebird Limited Editions command high sale prices while the 1970s Trans Am 6.6 "Smokey and the Bandit" cars are still affordable and appreciating in value. Melvin Benzaquen of Classic Restoration Enterprises has restored dozens of these cars. In this revealing guide, all crucial aspects of restoration are covered, including engine, driveline, interior, trim, electrical system, brakes, steering, and suspension. A special focus is placed on performing common body restoration procedures. Chapters also include VIN decoding, planning, preparation, tools, and painting techniques. Step-by-step photos accompanied by in-depth and detailed captions explain how to perform each stage of the restoration process. Pontiac Firebird and Trans Am owners are loyal and dedicated to the preservation of these storied high-performance models and therefore

demand an accurate and faithful restoration. The magnitude and variety of work in the restoration process can be overwhelming and that's why a complete restoration guide by an acknowledged expert is so important. Now, in this authoritative and comprehensive guide, you have the tools you need to get started on your Trans Am or Firebird restoration.

Ant Anstead's Building a Special brings the Haynes story full circle, coming 61 years after the original Building a 750 Special was written by John Haynes, Haynes Publishing's founder, when he was still a schoolboy. This book is a TV tie-in, following the 12-part TV series Ant Anstead Master Mechanic, aired on Motor Trend, part of the Discover Network in the US and UK, following Ant Anstead's build of his own-design 'special' car, taking inspiration from the Alfa 158 - the first World Championship-winning F1 car, which raced from the 1930s until the 1950s. The 12-part TV series followed Ant's build of the car, from the first design ideas, through the construction, culminating in the debut of the car during the 2019 US Grand Prix weekend in Austin, Texas. The book follows Ant's personal build of the car, from the selection of the donor MG TD for the chassis, and Alfa Romeo Spider for the engine and gearbox, through modifying the chassis, building the suspension, steering, brakes, bodywork and interior, and putting all the components together to produce a finished one-off 'special.' Content includes: Introduction The history of specials Planning Donor car Chassis, suspension, steering, rear axle Engine, fuel system, cooling system, ancillaries, exhaust Gearbox Bodywork Braking system Cockpit Wiring Preparation and painting Testing Setting up and Making road legal.
