[Strategic Brand Management](#) Simon and Schuster

In this updated edition of the industry staple, veteran media executive Jeff Ulin relates business theory and practice across key global market segments—film, television, and online/digital—providing you with an insider’s perspective that can’t be found anywhere else. Learn how an idea moves from concept to profit and how distribution dominates the bottom line: Hollywood stars may make the headlines, but marketing and distribution are the behind-the-scenes drivers converting content into cash. The third edition: Includes perspectives from key industry executives at studios, networks, agencies and online leaders, including Fox, Paramount, Lucasfilm, Endeavor, Tencent, MPAA, YouTube, Amazon, and many more; Explores the explosive growth of the Chinese market, including box office trends, participation in financing Hollywood feature films, and the surge in online usage; Illustrates how online streaming leaders like Netflix, Amazon, Apple, YouTube, Hulu and Facebook are changing the way TV content is distributed and consumed, and in cases how these services are moving into theatrical markets; Analyzes online influences and disruption throughout the distribution chain, and explains the risks and impact stemming from changing access points (e.g., stand-alone apps), delivery methods (over-the-top) and consumption patterns (e.g., binge watching); Breaks down historical film windows, the economic drivers behind them, and how online and digital delivery applications are changing the landscape. Ulin provides the virtual apprenticeship you need to demystify and manage the complicated media markets, understand how digital distribution has impacted the ecosystem, and glimpse into the future of how film and television content will be financed, distributed and watched. An online eResource contains further discussion on topics presented in the book.

[Integration and Innovation Orient to E-Society Volume 1](#) Simon and Schuster

“If you’re interested in the revolutionary transformation of the meaning and use of money, this is the book to read!”—Charles R. Schwab Cultural anthropologist Jack Weatherford traces our relationship with money, from primitive man’s cowrie shells to the electronic cash card, from the markets of Timbuktu to the New York Stock Exchange. The History of Money explores how money and the myriad forms of exchange have affected humanity, and how they will continue to shape all aspects of our lives—economic, political, and personal. “A fascinating book about the force that makes the world go round—the dollars, pounds, francs, marks, bahts, ringits, kwansas, levs, biplwelles, yuans, quetzales, pa’angas, ngultrums, ouguiyas, and other 200-odd brand names that collectively make up the mysterious thing we call money.”—Los Angeles Times

#1 NEW YORK TIMES BESTSELLER • “The Uninhabitable Earth hits you like a comet, with an overflow of insanely lyrical prose about our pending Armageddon.” —Andrew Solomon, author of *The Noonday Demon* NAMED ONE OF THE BEST BOOKS OF THE YEAR BY *The New Yorker* • *The New York Times Book Review* • *Time* • *NPR* • *The Economist* • *The Paris Review* • *Toronto Star* • *GQ* • *The Times Literary Supplement* • *The New York Public Library* • *Kirkus Reviews* It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible—food shortages, refugee emergencies, climate wars and economic devastation. An “epoch-defining book” (*The Guardian*) and “this generation’s Silent Spring” (*The Washington Post*), *The Uninhabitable Earth* is both a travelogue of the near future and a meditation on how that future will look to those living through it—the ways that warming promises to transform global politics, the meaning of technology and nature in the modern world, the sustainability of capitalism and the trajectory of human progress. *The Uninhabitable Earth* is also an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation—today’s. **LONGLISTED FOR THE PEN/E.O. WILSON LITERARY SCIENCE WRITING AWARD** “The Uninhabitable Earth is the most terrifying book I have ever read. Its subject is climate change, and its method is scientific, but its mode is Old Testament. The book is a meticulously documented, white-knuckled tour through the cascading catastrophes that will soon engulf our warming planet.” —Farhad Manjoo, *The New York Times* “Riveting. . . Some readers will find Mr. Wallace-Wells’s outline of possible futures alarmist. He is indeed alarmed. You should be, too.” —*The Economist* “Potent and evocative. . . Wallace-Wells has resolved to offer something other than the standard narrative of climate change. . . He avoids the ‘eerily banal language of climatology’ in favor of lush, rolling prose.” —Jennifer Szalai, *The New York Times* “The book has potential to be this generation’s Silent Spring.” —*The Washington Post* “The Uninhabitable Earth, which has become a best seller, taps into the underlying emotion of the day: fear. . . I encourage people to read this book.” —Alan Weisman, *The New York Review of Books* Feeling Great Wiley

Written by today’s leading authority in brand management and incorporating the latest industry thinking and developments, this exploration of brands, brand equity, and strategic brand management combines a comprehensive theoretical foundation with numerous techniques and practical insights for making better day-to-day and long-term brand decisions-- and thus improving the long-term profitability of specific brand strategies. Finely focused on “how-to” and “why” throughout, it provides specific tactical guidelines for planning, building, measuring, and managing brand equity. It includes numerous examples on virtually every

topic and over 100 Branding Briefs that identify successful and unsuccessful brands and explain why they have been so. For industry professionals from brand managers to chief marketing officers.

[The Future Is in the Post](#) University of Arizona Press

Michael Marti presents a complexity management model that is based on the reasoning that product architecture determines to a considerable extent how external complexity is translated into physical products. The model demonstrates a procedure to optimize a product’s architecture and is applied to several industrial products.

A true icon of Italian lifestyle, the 500 was actually supposed to be a niche product, but in just few years, its elegance and affordability made it one of the best selling cars, with 4 Millions units manufactured and sold in a 20 years lifespan. This volume recounts the story of this Italian symbol from the early models, through the iconic 1957 Nuova 500, up to the current version thanks to the many renderings and original designs included. The book gathers pictures to witness the relevance of the 500 and its many appearances in art, news, movies and every-day life.

[The History of Money](#) Haynes Manuals

This book is about ‘the post’ and its future. For many this means direct mail, and a common assumption is that this is a sector in almost inevitable decline. But to believe this is to take a far-too-limited view. In fact never has the business of the post been more exciting and challenging, and seldom have there been so many opportunities that could be grasped. With digital convergence direct mail has become an integral part of the media mix; electronic commerce has contributed to a healthy development in the traffic of parcels; and for those postal operators active in banking, finance and insurance competition and digitisation have offered new opportunities. In *The Future Is in the Post* an international group of highly experienced industry thought leaders discuss some of the strategic choices facing postal operators

[The Big Breach](#) Routledge

In spite of all the assistance offered by electronic control systems, the latest generation of passenger car chassis still relies on conventional chassis elements. With a view towards driving dynamics, this book examines these conventional elements and their interaction with mechatronic systems. First, it describes the fundamentals and design of the chassis and goes on to examine driving dynamics with a particularly practical focus. This is followed by a detailed description and explanation of the modern components. A separate section is devoted to the axles and processes for axle development. With its revised illustrations and several updates in the text and list of references, this new edition already includes a number of improvements over the first edition.

[Consuming Mobility](#) Haynes Publishing UK

The two-stroke engine is widely used in both motorcycle racing and kart racing, and in very large numbers in model car, boat and aircraft competition. The mechanical simplicity of the two-stroke engine gives it tremendous appeal, and makes it a tempting target for tuning operations, but the key to successful design, development and modification is knowledge of the engine’s operating principles. This in-depth technical study of two-stroke theory and practice is intended to help would-be engine tuners to better understand the engine and the processes taking place within it, and thereby to obtain improved performance.

[Fiat Panda Owners Workshop Manual](#) Haynes Publishing

Protected areas operate within complex ecological and social systems, presenting challenges that cannot be resolved by technical solution alone. Achieving the management objectives of protected areas requires a social approach in which strategic communication is a key instrument. This publication explores the often underestimated potential of communication, sharing valuable experiences from protected areas across the world, drawing on papers presented at the Vth IUCN World Parks Congress, 2003 and others.

"A thoughtful treatise on how popular representations of nature, through entertainment and tourism, shape how we imagine environmental problems and their solutions"--Provided by publisher.

Honda CB500F / X and CBR500R John Wiley & Sons

From the bestselling author of *The Bomber Mafia*: discover Malcolm Gladwell's breakthrough debut and explore the science behind viral trends in business, marketing, and human behavior. The tipping point is that magic moment when an idea, trend, or social behavior crosses a threshold, tips, and spreads like wildfire. Just as a single sick person can start an epidemic of the flu, so too can a small but precisely targeted push cause a fashion trend, the popularity of a new product, or a drop in the crime rate. This widely acclaimed bestseller, in which Malcolm Gladwell explores and brilliantly illuminates the tipping point phenomenon, is already changing the way people throughout the world think about selling products and disseminating ideas. "A wonderful page-turner about a fascinating idea that should affect the way every thinking person looks at the world." —Michael Lewis

An Introduction to Global Studies Haynes Publishing

This is one in a series of manuals for car or motorcycle owners. Each book provides information on routine maintenance and servicing, with tasks described and photographed in a step-by-step sequence so that even a novice can do the work.
