After critiquing?and infuriating?the art world with *The Painted Word*, the award-winning author Tom Wolfe shares his less-than-favorable thoughts about modern architecture in *From Bauhaus to Our House*. In this examination of the strange saga of twentieth-century architecture, Wolfe takes such European architects as Ludwig Mies van der Rohe, Le Corbusier, and Bauhaus art school founder Walter Gropius to task for their glass-and-steel-box buildings that have influenced (and infected) America's cities.

In every field of mass
communications—advertising, entertainment
studies, journalism, public relations, radio-television-
film, tourism, and visual reporting—professionals
understand the importance of storytelling.
Regardless of whether the finished product is a
commercial, an in-depth investigative piece, a
public service campaign, an independent
documentary, a travelogue, or a collection of
photographs, effective storytelling requires a
combination of creativity, empathy, and expertise.
Through the innovative technologies and
techniques described in this textbook, students will
learn how to turn passive readers and viewers into
engaged and regular users. The sixteen chapters
each include a brief introduction, assignments,
simple-to-follow step-by-step exercises, and sources
for additional information in which users will learn
to produce apps, informational graphics, quick
response codes, quizzes, simulations, smartphone
and table icons, social media campaigns, three-
dimensional pictures, and video. Students will work
with the following programs: Blogger,
Dreamweaver, Excel, Facebook, GeoCommons,
Google Maps, Illustrator, Imgur, iMovie, Infogram,

Does it have to be this way? Can ' t resist checking your smartphone or mobile device? Sure, all this connectivity keeps you in touch with your team and the office—but at what cost? In Sleeping with Your Smartphone, Harvard Business School professor Leslie Perlow reveals how you can disconnect and

become more productive in the process. In fact, she shows that you can devote more time to your personal life and accomplish more at work. The good news is that this doesn't require a grand organizational makeover or buy-in from the CEO. All it takes is collaboration between you and your team—working together and making small, doable changes. What started as an experiment with a six-person team at The Boston Consulting Group—one of the world's elite management consulting firms—triggered a global initiative that eventually spanned more than nine hundred BCG teams in thirty countries across five continents. These teams confronted their nonstop workweeks and changed the way they worked, becoming more efficient and effective. The result? Employees were more satisfied with their work-life balance and with their work in general. And the firm was better able to recruit and retain employees. Clients also benefited—often in unexpected ways. In this engaging book, Perlow takes you inside BCG to witness the challenges and benefits of disconnecting. She provides a step-by-step guide to introducing change on your team—by establishing a collective goal, encouraging open dialogue, ensuring leadership support—and then spreading change to the rest of your firm. If you and your colleagues are grappling with the “always on” problem, it's time to disconnect—and start reading.
