The Proscription of Terrorist Organisations Routledge

Women in Asia are on the move. The migration of women from village to city has increased dramatically in the past decade, and many of these new migrants are young single women seeking jobs. In several Asian countries, women migrants now outnumber men by a substantial margin. Along with the physical movement from rural to urban areas come new roles

Use of Models Soc Science Alfred Music Publishing

Thank you for reading our PRINCE2 Foundation Training Manual. The main objective of this book is to provide an easy-to-read and easy-to-understand PRINCE2(R) Foundation training manual. The official PRINCE2 manual, "Managing Successful Projects with PRINCE2," is an excellent reference manual, but it is not a training manual and should not be used as one, as it is very difficult to comprehend and understand if you are new to project management. The official PRINCE2 manual also covers the complete Practitioner Syllabus, and it's impossible to know which parts are just focused on the PRINCE2 Foundation syllabus, so you have to read everything, which is not good if you are just studying for the foundation exam. Henceforth, this book is meant to be (and is) an easy introduction to PRINCE2 based on the Foundation syllabus, and it's quickly becoming the most read book for people wishing to learn about PRINCE2 and prepare for the foundation exam.

This book deals with the philosophy of model use; focuses on the role of models in the natural sciences; and introduces a new paradigm to the social sciences, catastrophe model. It outlines the role of models concerned with conflict problems, particularly problems of military strategy.

PHP & MySQL: The Missing Manual Routledge Powers to outlaw or proscribe terrorist organisations have become cornerstones of global counter-terrorism regimes. In this comprehensive volume, an international group of leading scholars reflect on the array of proscription regimes found around the world, using a range of methodological, theoretical and disciplinary perspectives from Political Science, International Relations, Law, Sociology and Criminology. These perspectives consider how domestic political and legal institutions intersect with and transform the use of proscription in countering terrorism and beyond. The chapters advance a range of critical perspectives on proscription laws, processes and outcomes, drawing from a global range of cases including Australia, Canada, the EU, Spain, Sri Lanka, Turkey, the UK and the USA. Using single and comparative cases, the authors emphasise the impacts of proscription on freedoms of speech and association, dissent, political action and reconciliation. The chapters demonstrate the manifold consequences for diasporas and minorities, especially those communities linked to struggles overseas against oppressive regimes, and stress the significance of language and other symbolic practices in the justification and extension of proscription powers. The volume concludes with an in-depth interview on the blacklisting of terror groups with the former U.S. Director of National Intelligence, James Clapper. This book was originally published as a special issue of the journal *Terrorism and Political Violence*.
