Eighteen million Vespas have buzzed their way into the world since 1946. Stood end to end, they would form a line measuring 32,000 kilometres - 20,000 miles - in length. This is an almost inconceivable statistic, as with many things that transcend conventional measures and at some point achieve cult status. How did the little machine come so

far? The answer is simple. The Vespa has always remained the Vespa, true to itself, and has what others lack: real character! This book tells the Vespa's story via over 470 photos, corrects many misconceptions and lets the reader become immersed in the culture of Vespa and la bella vita.

There are many books about Triumph, but most of them concentrate on the glamorous twin-carburettor Bonneville and three-cylinder Trident. Alongside these headline grabbing bikes, Triumph built a whole series of single-carb machines that had all the style of their twin-carb cousins, but were not much slower, delivered better fuel consumption, and were easier to live with. Unlike the many books about Triumph's history, this one is a straightforward, practical guide to buying a Trophy or Tiger secondhand. In the Veloce Essential Buyer's Guide format, it delves into what these bikes are like to live with, and the values, advantages, and disadvantages of different models. Plus, of course, what to look for when buying one – including engine, transmission, frame, brakes, suspension, paint, chrome, and more.

Sometimes living under the shadow of the flashier, high-profile Triumph Twins, the equivalent BSAs were just as numerous and were exported all over the world. BSA was often seen as a less glamorous marque than Triumph or Norton, associated more with commuting and sidecars than coffee bar cowboys, but that doesn't detract from the collectibility of its models today, as the bikes have become highly usable, enjoyable classics. Unlike the many marque histories available, this book is a practical guide to buying one of these bikes. It covers the complete range, from the very first 1946 500cc A7 to the final 1973 650cc A65s. Chapters include what to look for (10min and 30min evaluations); spares prices; guides to auctions and paperwork; lists of useful contacts in the BSA community; and just as important, consideration of whether it's the
