Ferry Porsche Harvard Business Press An exploration of the work by American artist Richard Bernstein that celebrates his larger-than-life portraits for the covers of Andy Warhol ' s Interview magazine, as well as his visually arresting fine art, movie posters, and album covers created from the

mid-1960s to the 1990s. Richard Bernstein, a fixture at Studio 54 and with fashion and art insiders, captured the allure of the disco era through his iconic hyper-colored graphic portraits of superstars for the covers of Andy Warhol's Interview magazine. Warhol's influence on Bernstein's bold, playful, and graphic artwork is evident, and it was often thought that Warhol created the covers himself. Yet it was Bernstein, an American artist and art director, whose distinctive craft of retouching photographs with pastels, stencils, and airbrushing monumentalized his subjects into dazzling pop-art incarnations—sexy, captivating, and forever young. The book features his legendary Interview covers of Madonna, Grace Jones, Mick Jagger, Cher, Calvin Klein, Michael Jackson, and Aretha Franklin, and Bernstein's rarely seen fine artwork, album covers, and editorial work for Time, Vogue Italia, New York Magazine, and Playboy, complete with intimate anecdotes and interviews with his closest friends and collaborators. This volume is an essential addition to any fashion, pop culture, style, or art lover's library.

Stone Reeves was my neighbor, and I've hated him since sixth grade. Gorgeous and charismatic, he became the town's football god, while I became the town's invisible girl. He went to a Division 1 school for football, while my father was fired by his father. His team won the National Championship, while my mother died the same day. He was a first round pick for the NFL ... .. while I made the worst decision of my life. Now I'm in Texas trying to pick up the pieces of my life. But, Stone is here. Stone is everywhere. It doesn't matter that disaster has struck my life again. It doesn't matter that he's the one trying to console me. It doesn't matter that he's the nation's newest football obsession. Because for me, he always has been and always will be my enemy.

An English Car Designer Abroad is the humorous and personal account of a life spent working on the design of some of the world ' s best known cars. Commencing his career as a designer at Vauxhall Motors, Luton in 1973, Peter Birtwhistle then left the UK in 1977 to take a position abroad, at Audi in Germany, where he lived for the rest of his working life. From Audi, his career took him to Porsche in Stuttgart, and eventually, in 1988, to the Japanese company Mazda, with whom he would help develop a Design Centre close to Frankfurt, eventually becoming Chief Designer for Mazda Motor Europe. During his career,

Birtwhistle was involved in the design of some very significant cars and in his work and travels, crossed the paths of many significant personalities from the car industry. Car design has changed enormously since the time he commenced his career, and for Birtwhistle it was clear, his story needed to be documented before it was lost in time. Featuring original photographs and illustrations from the author ' s own collection, this highly humorous and very personal story creates a fascinating collage of anecdotes and historical facts, not only from the secretive world of car design, but also his private life.

While not a history of the GT40, each individual story will give the reader new insights into the car's design and development, as well as some fascinating racing tales and previously well-kept secrets. Chapters include an explanation of the mysteries of Appendix J and its impact on the design of the Mirage and MkIV GT40; a detailed scrutineering report on GT40P/1075 at Le Mans; some untold truths behind the 2005 name controversy; and the unrecorded engine swap which enabled a GT40 to race - and finish - at the Le Mans 24 hours. The book contains information which at last shows that Ford did really install the Indy 4-cam engine in a development of the GT40. It explains in detail how GT40-builder JWAE was structured, and what its accounts looked like: the fascinating facts concerning the financial aspects of the GT40-building business are revealed. These two highly knowledgeable and experienced authors have collaborated to bring you this great collection of GT40 stories, some of which had previously been published in magazines many years ago, but have now been reworked, and some of which are totally new. Practical advice for redesigning “big, old” companies for digital success, with examples from Amazon, BNY Mellon, LEGO, Philips, USAA, and many other global organizations. Most established companies have deployed such digital technologies as the cloud, mobile apps, the internet of things, and artificial intelligence. But few established companies are designed for digital. This book offers an essential guide for retooling organizations for digital success. In the digital economy, rapid pace of change in technology capabilities and customer desires means that business strategy must be fluid. As a result, the authors explain, business design has become a critical management responsibility. Effective business design enables a company to quickly pivot in response to new competitive

threats and opportunities. Most leaders today, however, rely on organizational structure to implement strategy, unaware that structure inhibits, rather than enables, agility. In companies that are designed for digital, people, processes, data, and technology are synchronized to identify and deliver innovative customer solutions—and redefine strategy. Digital design, not strategy, is what separates winners from losers in the digital economy. Designed for Digital offers practical advice on digital transformation, with examples that include Amazon, BNY Mellon, DBS Bank, LEGO, Philips, Schneider Electric, USAA, and many other global organizations. Drawing on five years of research and in-depth case studies, the book is an essential guide for companies that want to disrupt rather than be disrupted in the new digital landscape.
