Sunday school was developed to support what was already being done at home and in school. Today many churches still rely on the nineteenth-century model to encourage young people to become disciples of Christ. In *Growing Up Christian*, Dr. C. Ellis Nelson explores why these strategies are inadequate for the twenty-first century and offers practical, specific guidance for congregations who wish to nurture disciples of Christ more effectively. Part 1 describes the pattern of influences that form our images of God. Given the way culture and family influence the rising generation, Part 2 outlines a strategy for nurturing disciples that capitalizes on the persuasive power of the congregation in fellowship, worship, and instruction. A detailed discussion guide further assists congregations who wish to form a study group to assess and improve their Christian education.

*8 Habits for Growth* WestBow Press Growing up God's way forGirls is a colourful, fully illustrated book available as separate versions for boys and girls. It is intended for children approaching or experiencing puberty, typically represented by the 10-14 years old age range. The artwork haas been specially produced for the book and includes accurate biological drawings as well as 'cartoon' illustrations to keep the young reader interested. Most importantly of all, the Bible is the constant reference point, so that what the Bible has to say about the matters dealt with is always front and centre. The result is that this book conveys essential biblical ethical teaching as well as the facts about puberty. For example, here's an extract from the teaching on the chapter on 'Physical Intimacy' (in this case in the girls version): So special that God has given us rules It might seem attractive to live in a world where there are no laws. (Of course it would mean that your parents would never be able to tell you that you were doing something wrong!) But have you ever thought what would happen if there were no laws about how we should drive a car? The laws of the road make it safe for us to drive. If there were none, many more people on the road would get injured and driving would be a very frightening experience. God has given us a law regarding how we relate to the opposite sex in sexual intimacy. This law is the seventh of the Ten Commandments: 'You shall not commit adultery' (Exodus 20:14). From this verse and other passages in the Bible, we learn that all sexual activity outside marriage is wrong. The word adultery means either being married and experiencing sexual intimacy with someone who is not your husband, or experiencing sexual intimacy with someone else's husband. In the New Testament, God warns us to 'flee from sexual immorality' (1 Corinthians 6:18). The term 'sexual immorality' includes any sexual activity that is not between a husband and his wife. The fact that God has given us a specific command to keep sexual intimacy for marriage shows how important God considers sexual intimacy to be. The husband and wife are important to Him, their marriage is important to Him, and the new life that may result from sexual intimacy is important to Him. God's law about sexual intimacy is for our safety and well-being - it protects us, it protects marriage, and it protects young life.

Spiritual growth and a plant ’ s growth cycle are not different. Like the balloon plant, Christians grow in stages. Our spiritual timeline begins once we accept Christ. Then a seed germinates into a young plant that eventually blooms and shares faith experiences, which reproduces more faith and spreads seeds according to God ’ s plan. Finally, the plant develops into a mature Christian who is God ’ s harvester in preordained gardens. In the conclusion of her discipleship trilogy, Reverend Barbara A. F. Brehon shares scripture, wisdom, and a plant lifecycle comparison to gently move believers toward the light of the Lord in their respective growing seasons. Through her guidance, believers will learn how to strengthen their faith and sow seeds that encourage new believers and others to bloom where they are planted, clarify and fulfill their divine purpose, and grow intimacy with the Lord, who refines the mission. Blooming for Christ is an enlightening guide that offers scripture and insight to help believers grow closer to God and please the Lord in all seasons of life.

"Sheep swapping", "shuffling of the saints"- Whatever you call it, many churches are growing only because Christians transfer from one church to another. What's more, many churches aren't growing at all. The problem, according to authors, Dann Spader and Gary Mayes, is that too many church calendars are filled with outdated, mediocre programs that have become more of a burden than a blessing. That, coupled with the fact that these programs minister almost exclusively to Christians, leaves little for the non-Christian "seeker" to get excited about. Growing a Healthy Church is not a list of trendy new programs for your church agenda. It is a journey of rediscovery. Spader and Mayes look closely at the four stages of spiritual growth in relation to outreach. Using the innovative "M-level" system, these gifted men show how a church can minister to all individuals regardless of their levels of maturity in potential service. This helps eliminate the mistakes of forcing new Christians into service that may overwhelm them or may leave the mature Christian unchallenged. Proven successful through SonLife and churches who have used this system, this resource will help you focus on the simplicity of Christ's ministry, enabling you to build an effective discipling strategy for your church.
