The Next Step in Guided Reading Hodder Education

Reading fluency has been identified as a key component of proficient reading. Research has consistently demonstrated significant and substantial correlations between reading fluency and overall reading achievement. Despite the great potential for fluency to have a significant outcome on students ' reading achievement, it continues to be not well understood by teachers, school administrators and policy makers. The chapters in this volume examine reading fluency from a variety of perspectives. The initial chapter sketches the history of fluency as a literacy instruction component. Following chapters examine recent studies and approaches to reading fluency, followed by chapters that explore actual fluency instruction models and the impact of fluency instruction.

Assessment of reading fluency is critical for monitoring progress and identifying students in need of intervention. Two articles on assessment, one focused on word recognition and the other on prosody, expand our understanding of fluency measurement. Finally, a study from Turkey explores the relationship of various reading competencies, including fluency, in an integrated model of reading. Our hope for this volume is that it may spark a renewed interest in research into reading fluency and fluency instruction and move toward making fluency instruction an even more integral part of all literacy instruction.

A heartbreaking and powerful story about a black boy killed by a police officer, drawing connections through history, from award-winning author Jewell Parker Rhodes. Only the living can make the world better. Live and make it better. Twelve-year-old Jerome is shot by a police officer who mistakes his toy gun for a real threat. As a ghost, he observes the devastation that's been unleashed on his family and community in the wake of what they see as an unjust and brutal killing. Soon Jerome meets another ghost: Emmett Till, a boy from a very different time but similar circumstances. Emmett helps Jerome process what has happened, on a journey towards recognizing how historical racism may have led to the events that ended his life. Jerome also meets Sarah, the daughter of the police officer, who grapples with her father's actions. Once again Jewell Parker Rhodes deftly weaves historical and socio-political layers into a gripping and poignant story about how children and families face the complexities of today's world, and how one boy grows to understand American blackness in the aftermath of his own death.

A shift in perspective can change everything. This brilliant new novel from the author of *The Seventh Most Important Thing* celebrates kids who see the world a little differently. April is looking for an escape from the sixth-grade lunch hour, which has become a social-scene nightmare, so she signs up to be a "buddy bench monitor" for the fourth graders' recess. Joey Byrd is a boy on the fringes, who wanders the playground alone, dragging his foot through the dirt. But over time, April realizes that Joey isn't just making random circles. When you look at his designs from above, a story emerges... Joey's "bird's eye" drawings reveal what he observes and thinks about every day. Told in alternating viewpoints--April's in text and Joey's

mostly in art--the story gives the "whole picture" of what happens as these two outsiders find their rightful places.
