### **Preventing Teen Motor Crashes**

From a public health perspective, motor vehicle crashes are among the most serious problems facing teenagers. Even after more than six months of being licensed to drive alone, teens are two to three times more likely to be in a fatal crash than are the more experienced drivers. Crash rates are significantly higher for male drivers, and young people in the United States are at greater risk of dying or being injured in an automobile than their peers around the world. In fact, in 2003 motor vehicle crashes was the leading cause of death for youth ages 16-20 in the United States. Understanding how and why teen motor vehicle crashes happen is key to developing countermeasures to reduce their number. Applying this understanding to the development of prevention strategies holds significant promise for improving safety but many of these efforts are thwarted by a lack of evidence as to which prevention strategies are most effective. Preventing Teen Motor Crashes presents data from a multidisciplinary group that shared information on emerging technology for studying, monitoring, and controlling driving behavior. The book provides an overview of the factual information that was presented, as well as the insights that emerged about the

role researchers can play in reducing and preventing teen motor crashes.

### *Psychology*

The universal experience for most high school students is learning to drive and getting their driver's license. Add breathlessly plotted romance and an accident and you have a poignant and realistic novel. Remy Martin prays to the God of Driver's Education that she will get to drive today. She doesn't know where she's going, but she knows one thing . . . she is going to get there fast. Morgan Campbell had been standing on the threshold of 16 and getting his driver's license ever since he could remember. But deep into the first crush of his life, thinking of nothing but girls, Morgan forgot what driving was all about. This poignant novel about responsibility and consequences is as convincing as it is irresistible.
