Architecture and Gender in American Film Disha Publications
From the silent era until the advent of the Cinemascope--the skyscraper as movie star. Whether tall office buildings, high-rise apartments, or lofty hotels, skyscrapers have been stars in American cinema since the silent era. Cinema's tall buildings have been variously represented as unbridled aspiration, dens of iniquity and eroticism, beacons of democracy, and well-oiled corporate machines.

Considering their intriguing diversity, Merrill Schleier establishes and explains the impact of actual skyscrapers on America's ideologies about work, leisure, romance, sexual identity, and politics as seen in Hollywood movies.

"Studios are, at once,
material environments and

they have remained invisible
in order to be seen. As such,

they have actively faded into the background of critical discourse and into the margins of film and media history. Recovering their hidden role in the history of visual creation, *In the Studio* demonstrates that when we foreground these worlds, we gain new insights into moving-image culture and the material, ecological, social, political, and economic dynamics that quietly mark the worlds on our screens. Spanning the twentieth century and moving globally, from Japan to Brazil, Mexico

to Moscow, and Hollywood to Dubai, this unique collection tells new stories about studio icons--Pinewood, Cinecittà, Churubusco, and CBS--as well as the experimental workplaces of filmmakers and artists from Aleksandr Medvedkin to Charles and Ray Eames and Hollis Frampton"--
