2003 Ducati 999 Start Up

The Ducati 999 model is a Sport bike manufactured by Ducati . In this version sold from year 2003 , the dry weight is 199.0 kg (438.7 pounds) and it is equipped with a V2, four-stroke motor. The engine produces a maximum peak output power of 124.00

HP (90.5 kW) @ 9500 RPM and a maximum torque of 102.00 Nm (10.4 kgf-m or 75.2 ft.lbs) @ 8000 RPM .

The Testastretta engine of the 999 twin packs an impressive punch. The performance is that of a thoroughbred race engine, with 140 HP at 9,750 rpm and 11.1 kgm of available torque at 8,000 rpm. Among the many advantages of this engine is its deep sump, resembling that of the official race machines, that allows very generous lean angles for high speed cornering.

[Ducati 999 - webBikeWorld](#)

The base 999 was given a 140 bhp engine and outfitted with an adjustable Showa suspension, while the 999S model had 143 bhp (107 kW) and a top of the line Öhlins suspension. The 999R was the only 999 model to displace a true 999 cc (the others were 998 cc; the 2002 998R also displaced 999 cc) and the engine is good for 150 bhp (112 kW).
