Duh! the Stupid History of the Human Race Andrews McMeel Publishing

INSTANT NEW YORK TIMES BESTSELLER A dramatically new understanding of human history, challenging our most fundamental assumptions about social evolution—from the development of agriculture and cities to the origins of the state, democracy, and inequality—and revealing new possibilities for human emancipation. For generations, our remote ancestors have been cast as primitive and childlike—either free and equal innocents, or thuggish and warlike. Civilization, we are told, could be achieved only by sacrificing those original freedoms or, alternatively, by taming our baser instincts. David Graeber and David Wengrow show how such theories first emerged in the eighteenth century as a conservative reaction to powerful critiques of European society posed by Indigenous observers and intellectuals. Revisiting this encounter has startling implications for how we make sense of human history today, including the origins of farming, property, cities, democracy, slavery, and civilization itself. Drawing on pathbreaking research in archaeology and anthropology, the authors show how history becomes a far more interesting place once we learn to throw off our conceptual shackles and perceive what's really there. If humans did not spend 95 percent of their evolutionary past in tiny bands of hunter-gatherers, what were they doing all that

time? If agriculture, and cities, did not mean a plunge into hierarchy and domination, then what kinds of social and economic organization did they lead to? The answers are often unexpected, and suggest that the course of human history may be less set in stone, and more full of playful, hopeful possibilities, than we tend to assume. *The Dawn of Everything* fundamentally transforms our understanding of the human past and offers a path toward imagining new forms of freedom, new ways of organizing society. This is a monumental book of formidable intellectual range, animated by curiosity, moral vision, and a faith in the power of direct action. Includes Black-and-White Illustrations

Laugh Off Andrews McMeel Publishing

“A strikingly original . . . collection of essays, which places the work and broad intellectual interests of Lynne Margulis in a variety of contexts.” —Stacy Alaimo, author of *Exposed: Environmental Politics and Pleasures in Posthuman Times* Exploring the broad implications of evolutionary theorist Lynn Margulis’s work, this collection brings together specialists across a range of disciplines, from paleontology, molecular biology, evolutionary theory, and geobiology to developmental systems theory, archaeology, history of science, cultural science studies, and literature and science. Addressing the multiple themes that animated Margulis’s science, the essays within take up, variously, astrobiology and the origin of life, ecology and symbiosis from the microbial to the planetary scale, the coupled interactions of earthly environments and evolving life in Gaia theory and earth system science, and the connections of these newer scientific ideas to cultural and creative productions. “Altogether, *Earth, Life, and System* offers a series of often fascinating, always stimulating . . . invariably enriching essays in an incisive and unruly science and its existential repercussions. It is a fitting tribute to one of modern science’s most generative and productive independent spirits, a gadfly like Socrates whose ultimate concern was to ensure that enquiry and debate were never stifled by received opinion and ‘normal’ expectations.” —The British Society for Literature and Science “A vital contribution to interdisciplinary knowledge about life, evolution, and the planetary imaginary.” —Tyler Volk, award-winning author of *Quarks to Culture* “Contributors include biologists, philosophers, historians, and even Margulis’s son, a science writer who sets the tone for the rest of the text in an intimate first

chapter about his mother. Clarke's sought-after interdisciplinarity shines in the finished product." —Isis Review

Beauty Fades/Dumb Is Forever Dial Press

Offering a compilation of the stupid things that people do, this three-part study of humankind describes human idiocy within such areas as politics, history, science, and sports, and offers advice on how to avoid doing stupid things.

The Duh Awards Andrews McMeel Publishing

Stupidity seems to be everywhere--government, prisons, schools, Hollywood, business--and, truth be told, most of us even have a questionable neighbor or two. Presenting a daily example of one of the dumbest things ever said or done--like the guy who tried to rid his house of spiders with a blowtorch, but rid himself of a house instead; or the bank robber who used a holdup note written on the back of his own account balance receipt--the Duh! The Dumbest Things Ever Said or Done 2012 Day-to-Day Calendar makes known what we've suspected all along: stupidity is everywhere, and it's hysterically funny.

The Dumbest Generation Farrar, Straus and Giroux

Spencer "Responsible" Davis is nowhere ready to "give up the V," as opposed to her hormonally crazed crew of friends, obsessed with the who-what-when-where-how of it all. "It" being . . . well, you get it. Even Spencer's male friends, who claim to have expertise in the matter, offer their services to help relieve her of that pesky letter, much to her embarrassment. But when new-kid Benjamin enters the picture, Spencer begins to rethink her "responsible" moniker, and for the first time she wonders if she's found just the right guy worth trading in her V-card.

Cat's Cradle Gibbs Smith

"The captain class" draws on a lifetime of sports spectatorship and two decades of sports reporting to tell the surprising story of what makes teams exceptional. Sam Walker had been searching for the sporting holy grail, a unifying theory of what makes teams win when he discovered certain similarities in cases of sustained greatness in teams across a number of sports. They were all led by a certain type of captain, but not one with the characteristics you might expect. They were unorthodox outliers - disagreeable, marginally skilled, hot-headed, occasionally unhinged, athletically sub-par, poor verbal communicators, while off the field they were private loners who avoided the limelight

A Lady of the West Crown

"Avital Ronell's work studies the fading empire of cognition, modulating stupidity into idiocy, puerility, and the figure of the ridiculous philosopher instituted by Kant. Investigating ignorance,

dumbfoundedness, and the limits of reason, Stupidity probes the pervasive practice of theory-bashing and related forms of paranoid aggression. A section on prolonged and debilitating illness pushes the text to an edge of corporeal hermeneutics, "at the limits of what the body knows and tells." --BOOK JACKET.

Boys Are Stupid, Throw Rocks at Them! National Geographic Books

From the genius of funnyman Bob Fenster, who brought you Duh!, They Did What!?, and Well, Duh!, comes another in real-life idiocy. The Duh Awards honors the intellectually challenged and utterly inept. From historical explorers to politicians to celebrities to everyday people, no one is spared from lampoon. Ever notice there seems to be an award show for just about everything? And that everyone who wins is rich, beautiful, and brilliant? Good-looking, intelligent winners are everywhere. The Duh Awards is for the rest of us. These awards are handed out to the not-so-smart, the underworked, the overpaid, the wacky, the weird, and the downright stupid. And it's about time! Chapters include such ridiculousness as: Boss of the Year and Other Slave Driver Awards; Champion Scoffers, Scorners, Insulters, and Other All-Star Wise Guys; and Only in Hollywood-The Anti-Oscars. Here are just a excerpts from this hilarious book: The Know-a-Little, Talk-a-Lot Society presents the Anti-Expert Awards: In 1931 President Herbert Hoover somehow missed the impact of the Great Depression when he offered this solution: "If someone could get off a good joke every ten days, I think our troubles would be over." Winning Mind Games: All-Star Shockers, Psych-Outs, and Gross Champs: During the halftime show of the 2004 Super Bowl, singer Justin Timberlake removed part of singer Janet Jackson's shirt to reveal one of her star breasts on national TV. This upset viewers who had tuned in to watch rapper Nelly grab his crotch. The Spin Awards for Fooling Most of the People Enough of the Time: In 2003 Secretary of Defense Donald Rumsfeld told the press: "As we know, there are known knowns; there are things we know we know. We also know there are known unknowns; that is to say we know there are some things we do not know. But there are also unknown unknowns--the ones we don't know we don't know." The Duh Awards celebrates the moments that some would rather we forget.

Earth, Life, and System Harper Collins

Truth, as any good reporter knows, is stranger than fiction. It's often funnier as well. Bob Fenster provides proof of that in his latest hilarious collection, Each Laugh Off chapter presents a collection of true-life anecdotes and professional comic material covering subjects such as funny money; on-the-job laughs; show biz glory; jokes for jocks; and doctors without pants, lawyers without briefs. The mix provides a plethora of funny stories, and readers get the chance to judge for themselves which scores higher on the Laugh Meter. Whichever way they lean, Laugh Off proves that life never lacks for hilarious material. Packed with hundreds of whimsical and witty stories, sayings, and observations, Laugh Off is arranged in a three-part format: part 1 presents the everyday vs. comic showdowns, part 2 explores comedy through the regular lives of executives, teachers, surfers, politicians, and

others, and part 3 delivers bonus laughs for the humor-deprived.

Together it all makes Laugh Off one big hoot!

The Historian Basic Books

The record-breaking phenomenon from Elizabeth Kostova is a celebrated masterpiece that "refashioned the vampire myth into a compelling contemporary novel, a late-night page-turner" (San Francisco Chronicle). Breathtakingly suspenseful and beautifully written, The Historian is the story of a young woman plunged into a labyrinth where the secrets of her family's past connect to an inconceivable evil: the dark fifteenth-century reign of Vlad the Impaler and a time-defying pact that may have kept his awful work alive through the ages. The search for the truth becomes an adventure of monumental proportions, taking us from monasteries and dusty libraries to the capitals of Eastern Europe—in a feat of storytelling so rich, so hypnotic, so exciting that it has enthralled readers around the world. "Part thriller, part history, part romance...Kostova has a keen sense of storytelling and she has a marvelous tale to tell." —Baltimore Sun

In a bloody land war, they will fight for Jake's birthright...and seize at all costs the love that is their destiny.

The Dawn of Everything Moonwater Press

Nature, money, work, care, food, energy, and lives: these are the seven things

that have made our world and will shape its future. In making these things cheap, modern commerce has transformed, governed, and devastated Earth. In *A History of the World in Seven Cheap Things*, Raj Patel and Jason W. Moore present a new approach to analyzing today's planetary emergencies. Bringing the latest ecological research together with histories of colonialism, indigenous struggles, slave revolts, and other rebellions and uprisings, Patel and Moore demonstrate that throughout history, crises have always prompted fresh strategies to make the world cheap and safe for capitalism. At a time of crisis in all seven cheap things, innovative and systemic thinking is urgently required. This book proposes a radical new way of understanding—and reclaiming—the planet in the turbulent twenty-first century.

Judge Judy has heard enough. As a family court judge in New York City and now in her successful TV courtroom show, she has listened to thousands of excuses, complaints, and tales of woe from women of every background, and she's ready to rule. Women, she states with her trademark frankness, need to wise up, stop subjugating who they are, and stop making stupid decisions in the name of love. They hide their talents and opinions so they won't offend. They tiptoe through life letting others take credit for their ideas because they would rather be liked than respected. They spend their lives trying to please everyone but themselves, and then they wonder why they feel so frustrated and unfulfilled. *Beauty Fades, Dumb Is Forever* presents Judge Judy's ten hard and true lessons for happiness: Beauty fades, dumb is forever. Don't crawl when you can fly. What goes up must come down. Denial is a river in Egypt. Master the game--then play it. You're the trunk of the tree. You can't teach the bull to dance. Failure doesn't build character. Letting go is half the fun. You can be the hero of your own story.

An Uncommon History of Common Things Turtleback

This shocking, surprisingly entertaining romp into the intellectual nether regions of today's underthirty set reveals the disturbing and, ultimately, incontrovertible truth: cyberculture is turning us into a society of know-nothings. *The Dumbest Generation* is a dire report on the intellectual life of young adults and a timely warning of its impact on American democracy and culture. For decades, concern has been brewing about the dumbed-down popular culture available to young people and the impact it has on their futures. But at the dawn of the digital age, many thought they saw an answer: the internet, email, blogs, and interactive and hyper-realistic video games promised to yield a generation of sharper, more aware, and intellectually sophisticated children. The terms “information superhighway” and “knowledge economy” entered the lexicon, and we assumed that teens would use their knowledge and understanding of technology to set themselves apart as the vanguards of this new digital era. That was the promise. But the enlightenment didn't happen. The technology that was supposed to make young adults more aware, diversify their tastes, and improve their verbal skills has had the opposite effect. According to recent reports from the National Endowment for the Arts, most young people

in the United States do not read literature, visit museums, or vote. They cannot explain basic scientific methods, recount basic American history, name their local political representatives, or locate Iraq or Israel on a map. *The Dumbest Generation: How the Digital Age Stupefies Young Americans and Jeopardizes Our Future* is a startling examination of the intellectual life of young adults and a timely warning of its impact on American culture and democracy. Over the last few decades, how we view adolescence itself has changed, growing from a pitstop on the road to adulthood to its own space in society, wholly separate from adult life. This change in adolescent culture has gone hand in hand with an insidious infantilization of our culture at large; as adolescents continue to disengage from the adult world, they have built their own, acquiring more spending money, steering classrooms and culture towards their own needs and interests, and now using the technology once promoted as the greatest hope for their futures to indulge in diversions, from MySpace to multiplayer video games, 24/7. Can a nation continue to enjoy political and economic predominance if its citizens refuse to grow up? Drawing upon exhaustive research, personal anecdotes, and historical and social analysis, *The Dumbest Generation* presents a portrait of the young American mind at this critical juncture, and lays out a compelling vision of how we might address its deficiencies. *The Dumbest Generation* pulls no punches as it reveals the true cost of the digital age—and our last chance to fix it.

Well, Duh! Verso Books

'The book is like the spoon: once invented, it cannot be bettered' Umberto Eco These days it is impossible to get away from discussions of whether the book will survive the digital revolution. Blogs, tweets and newspaper articles on the subject appear daily, many of them repetitive, most of them admitting ignorance of the future. Amidst the twittering, the thoughts of Jean-Claude Carrière and Umberto Eco come as a breath of fresh air. This thought-provoking book takes the form of a conversation in which Carrière and Eco discuss everything from how to define the first book to what is happening to knowledge now that infinite amounts of information are available at the click of a mouse. En route there are delightful digressions into personal anecdote. We find out about Eco's first computer and the book Carrière is most sad to have sold. And while, as Carrière says, the one certain thing about the future is that it is unpredictable, it is clear from this conversation that, in some form or other, the book will survive. 'A storming book. The next best thing to sitting in Umberto Eco's living room after dinner; a dream collection of lucid and fascinating discussions' Nick Harkaway 'Hurrah for philosopher and novelist Umberto Eco and playwright and screenwriter Jean-

Claude Carrière, who have come together to praise the medium... Fans of Eco and Carrière will be charmed' Time Out 'An entertainingly free-range dialogue about writing past, present and future' Independent

BEYOND GODS AND SCRIPTURES Andrews McMeel Publishing

From absurd 911 calls to presidential philosophizing to his New York Times best-selling *Stupid American History*, Leland Gregory generates the best laughs by exposing the worst of human nature. Now, Gregory--sets his sights north to the frozen tundra of Canada to skewer Canadians, in *Canaduh: Idiots from the Frozen North*. Inside *Canaduh: Idiots from the Frozen North*, Gregory offers hundreds of accounts of Canadian stupidity at its most random and bizarre, starring French-speaking Quebecois, Yukon fur trappers, and Arctic Circle Eskimos. Because the stories Leland chronicles are just that unbelievable, each anecdote, quote, or factoid is presented with relevant background information--including its verified news source.

This is Not the End of the Book Andrews McMeel Publishing Never kiss a rattlesnake. Put on the parachute before jumping from the plane. Don't bring your dog along if you're going to rob a bank. These seem like obvious pieces of advice, but there's apparently no shortage of rattlesnake kissers, as evidenced by this hilarious calendar. Offering another hilarious collection of the truly dumb things people say and do, the *Duh! 2013 Day-to-Day Calendar* features celebrities, politicians, athletes, criminals, and regular Joes, all caught in extreme (and funny) stupidity.
