In a twist of fate that rocks the Galactic Empire, James McGill finds himself negotiating the future of a thousand inhabited worlds. An artificial object made of compressed stardust is barreling toward Earth.

Is it an invasion ship? A doomsday weapon? Perhaps it's the final response of Squanto, the Warlord of Rigel who McGill has repeatedly humiliated. Or could it be from the Mogwa, sent to avenge McGill's assassination of Earth's Imperial Governor? No one knows the truth of its origins, but the object is huge and unstoppable. Whoever hurled this rock at us isn't answering our calls. Every weapon bounces off, and the people of Earth begin to go mad as they realize their destruction is only hours away. ARMOR WORLD is the eleventh book of the Undying Mercenaries Series. With over three million copies sold, author B. V. Larson is the king of modern military science fiction. Tales of the Lance

Professor Keirse is a long time clinical psychologist of the gestalt-field systems school. After 30 years of treating hundreds of teaching, parenting, marriage, and management problems, Dr. Keirse now challenges the reader to "Abandon the Pygmalion Project", that endless and fruitless attempt to change the Other into a carbon copy of Oneself. The Theory of the State Confraternity of the Precious Blood Originally published just months before the May 1968 upheavals in France, Raoul Vaneigem 's The Revolution of Everyday Life offered a lyrical and aphoristic critique of the " society of the

spectacle " from the point of view of individual experience. Whereas Debord ' s masterful analysis of the new historical conditions that triggered the uprisings of the 1960s armed the revolutionaries of the time with theory, Vaneigem ' s book described their feelings of desperation directly, and armed them with " formulations capable of firing point-blank on our enemies. " " I realise, " writes Vaneigem in his introduction, " that I have given subjective will an easy time in this book, but let no one reproach me for this without first considering the extent to which the objective

conditions of the contemporary world advance the cause of subjectivity day after day.” Vaneigem names and defines the alienating features of everyday life in consumer society: survival rather than life, the call to sacrifice, the cultivation of false needs, the dictatorship of the commodity, subjection to social roles, and above all the replacement of God by the Economy. And in the second part of his book, “Reversal of Perspective,” he explores the countervailing impulses that, in true dialectical fashion, persist within the deepest alienation: creativity, spontaneity, poetry, and the path from isolation to communication and participation. For “To desire a different life is already that life in the making.” And “fulfillment is expressed in the singular but conjugated in the plural.” The present English translation was first published by Rebel Press of London in 1983. This new edition of *The Revolution of Everyday Life* has been reviewed and corrected by the translator and contains a new preface addressed to English-language readers by Raoul Vaneigem. The book is the first of several translations of works by Raoul Vaneigem that PM

Press plans to publish in uniform volumes. Vaneigem ' s classic work is to be followed by *The Knight, the Lady, the Devil, and Death* (2003) and *The Inhumanity of Religion* (2000). *My Daily Bread* (Full Size) Litres

The Galactics arrived with their Battle fleet in 2052. Rather than being exterminated under a barrage of hell-burners, Earth joined a vast Empire that spanned the Milky Way. Our only worthwhile trade goods are our infamous mercenary legions, elite troops we sell to the highest alien bidder. In the third book in the series, James McGill is deployed on

another alien world. His third interstellar tour is different in every way. Rather than meeting up with a primitive society, this time he's headed to an advanced world. Tau Ceti, better known as Tech World, is the central trading capital of Frontier 921. McGill figures he's lucked out. The assignment looks dull but luxurious. Tau Ceti boasts a planet-wide city with a trillion inhabitants, all of whom are only interested in making a few credits. But all is not well on Tech World. The Empire is crumbling, an invasion is coming, and McGill's easy ride through life and death has come to an end. Tech World is a

Mercenaries 2 World in Flames-NIa anboco Life is not all beer and skittles,' said a reflective sportsman, and all books are not fairy tales. In an imperfect state of existence, 'the peety of it is that we cannot have all things as we would like them.' Undeniably we would like all books to be fairy tales or novels, and at present most of them are. But there is another side to things, and we must face it. "Life is real, life is

earnest," as Tennyson tells us,' said an orator to whom I listened lately, and though Longfellow, not Tennyson, wrote the famous line quoted by the earnest speaker, yet there is a good deal of truth in it. The word 'earnest,' like many other good words, has been overdone. It is common to sneer at 'earnest workers,' yet where would we be without them, especially in our climate?

This early work on Persian history is both

expensive and hard to find in its first edition. It contains a personal narrative of the late Treasurer General of Persia and his firsthand account of America's involvement in the shaping of modern day Iran. This is a fascinating work and thoroughly recommended for anyone interested in Iranian history. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.
