Since 1958 the Maritime Administration has
continuously conducted instructions in use of
collision avoidance radar for qualified U.S.
seafaring personnel and representatives of
interested Federal and State Agencies. Beginning in
1963, to facilitate the expansion of training
capabilities and at the same time to provide the

most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. An American photographer in Paris is
unwittingly drawn into a nightmarish
terror plot when one of his
daguerreotypes puts both his life and his

adopted city in gravest peril There is a Paris that no tourist ever sees—a shadowy secret world of intrigue, betrayal, and murder. The son of a recently deceased CIA agent, photographer and American expatriate Jason Anthony Grant knows the dark side of the City of Light all too well. When an imitation daguerreotype he created for fun falls into the wrong hands, Jay finds himself a target, accused of fraud. Only by recovering the entire series of photographic fakes can he hope to avoid prosecution. But suddenly, other parties have become interested in his work: former Cold War operatives and Company spooks, French intelligence agents and cutthroat murderers with shady, unrevealed allegiances. They all want Jay for themselves, and not all of them want him alive. He discovers he's become an unwitting pawn in a chilling conspiracy that could destroy the beautiful city he loves—a city that has now become a dark and dangerous maze with treacherous turns and too many dead ends. A breakneck-paced thriller brimming with intrigue, murder, espionage, terrorism, and relentless Hitchcockian surprise and suspense, David Downie's Paris City of Night introduces readers to a Paris they've never imagined and a hero they will never forget.
