The bestselling "offbeat, down-to-earth love story"(The Observer, London)- now available in the United States  
An international sensation, this addictively readable tale asks the question: Why is it so impossible to get a relationship between two middle-aged misfits to work? The answer lies in the story of Shrimp, a young widowed librarian with a sharp intellect and a home so tidy that her jam jars are in alphabetical order; Benny, a gentle, overworked milk farmer who fears becoming the village's Old Bachelor; and an unlikely love that should not be as complicated as it seems. Reminiscent of the works of Carol Shields, this quirky,

humorous, beautifully told novel breathes new life into the age-old conundrum that is love.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in

1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and
