To use the manual siphon pump, tighten the cap on the top of the siphon, place the straight tube into the kerosene container, and insert the flexible tube into the opening of the fuel tank. By squeezing the bulb of the siphon pump, fuel will be transferred from the kerosene container into the heater tank (Fig.10).

I wanted to do a video how I do the maintenance on my big Kerosene heater. Here is the Wick on Amazon if you need one: <https://amzn.to/2AP7fU8>  
You can also...

**EXTINGUISHING THE HEATER** To extinguish the heater, push down on the manual shut-off knob (Fig.18) with one hand while holding the wick adjuster knob in the other hand. You will feel the pressure of spring action attempting to turn the wick adjuster knob in a counter-clockwise direction in your hand. Page 14: Long Term Storage Of Your Heater
