Fungsi ASN sebagaimana tercantum dalam UU No. 5 Tahun 2014 tentang ASN, adalah sebagai Pelaksana Kebijakan Publik, Pelayan Publik dan sebagai Perekat Pemersatu Bangsa. Pelayanan yang diberikan seorang ASN sangatlah menentukan tingkat pemenuhan kebutuhan pelayanan yang diterima

masyarakat sekaligus menentukan tingkat kepuasan masyarakat yang dilayani, sehingga dijadikan indikator keberhasilan sistem penyelenggaraan pemerintahan. Hal ini tersirat bahwa pelayanan publik oleh ASN kepada masyarakat, termasuk pelayanan bagi para penyandang disabilitas, merupakan unsur yang penting dalam rangka pemenuhan kebutuhan masyarakat oleh pemerintah. Oleh karena itu, ASN dituntut bekerja secara optimal untuk memberikan pelayanan yang berkualitas dan memuaskan masyarakat. Pelayanan publik yang berkualitas sangat diharapkan oleh masyarakat, tetapi memang tidak mudah mewujudkannya, termasuk pelayanan publik bagi para penyandang disabilitas, yang sampai saat ini dirasakan belum bahkan sangat tidak memadai, sehingga para penyandang disabilitas, masih menemui kesulitan untuk mengakses fasilitas publik. Menteri Hukum dan HAM RI Yasonna Laoly mengatakan Indonesia masih dipenuhi kota-kota yang tidak ramah terhadap Hak Asasi Manusia (HAM). Salah satu indikatornya adalah, belum maksimalnya fasilitas bagi penyandang difabel. Hal ini menjadi salah satu indikator rendahnya kualitas pelayanan publik oleh Pemerintah. Oleh

karenanya, peningkatan kualitas pelayanan publik, harus mendorong dan mewujudkan pemenuhan hak-hak kaum difabel atau penyandang disabilitas, mutlak untuk direalisasikan oleh pemerintah, sebagaimana amanah UU No.25 Tahun 2009 tentang Pelayanan Publik dan UU No. 8 Tahun 2016 tentang Penyandang Disabilitas.

This is an open access book. The International Conference on Education, Humanities, and Social Science (ICEHoS) is an activity in the form of an international conference by presenting new studies and research results in the fields of Education, Humanities, and Social Sciences. The Elementary School Teacher Education Study Program is the organizer of this international conference. ICEHoS is the second conference held by us and will be held virtually due to the COVID-19 Pandemic which has not shown a better situation. The 2nd ICEHoS 2022 conference is expected to be able to bring together national and international scale researchers, academics, practitioners, students, and community and industry activists in our chosen fields. Considering the COVID-19 pandemic which has impacted various

lines, especially research in this field, the 2nd ICEHoS 2022 international conference has the main theme, "The future education in society 5.0 to build a strong learning connection."

International and Life Course Aspects of COVID-19 describes the nuances and international variations of COVID-19 in different populations and age groups. This volume details those differences in chapters examining the effects of the virus at different life stages, including newborns, children, adolescents, and older populations.

Consideration of the age-specific effects of COVID-19 on the brain are a major focus unique to this resource. International observations and global outcomes are also described. This volume is relevant for all clinicians working to ensure the best outcomes for patients with COVID-19 worldwide. - Examines COVID-19 symptoms and concerns according to age - Discusses outcomes related to global populations and differences observed in symptomatology and care - Focuses on the brain, with a look at developmental changes in pregnancy, newborns, childhood, and adolescence - Describes mental health impacts in the older populations - Features individual

chapter introductions and summaries to provide a comprehensive introduction - Contains chapters with key facts, dictionary of terms, summary points, applications to other areas pertinent to each chapter, and policies and procedures

This is an open access book. The International Conference on Educational Technology and Management (ICEMT) is held to bring together academics, researchers, teachers, educational entrepreneurs, practitioners, and policy makers. They are responsible for implementing educational technology by leveraging resources through education management to create and enable ecosystem capabilities and access to education. The Covid-19 pandemic teaches that aspects of information and communication technology in education

management are full of limitations. Inevitably, educational users have moved dramatically to online channels. Students and teachers are accustomed to learning from home. There are opportunities, as well as challenges. Although the pandemic isn't over yet, future updates are needed.

This is an open access book. Welcome to the 2-nd AISYIYAH International Conference on Health Sciences and Medicine (A-HMS). This conference is part of the 3-rd International Conference of Health, Science and Technology Organized by Universitas 'AISYIYAH' Yogyakarta. Theme of the conference is Transformation of Technology for a Better Life. This conference is designed to provide a forum for experts from various disciplines to contribute their expertise and experience related to technological transformation for a better life that can be seen from the dimension of health and medical science. The conference will be held on October 14-15, 2022.

Manajemen Mutu Feniks Muda Sejahtera Indonesia has a growing population of almost

300 million people, it is increasingly involved in world affairs, and has a booming economy. The need to better understand its unique, complex, and often obscure legal system, has become pressing. This is true across a wide range of sectors including, but not limited to, trade and investment, crime and terrorism, and human rights. Indonesia's democratization after the fall of Soeharto in 1998 triggered massive social and political changes that opened up this diverse, and formerly tightly-controlled, society. Law reform was a key driver of Indonesia's transformation and its full effect remains to be seen. This book offers clear and detailed explanations of the foundations of Indonesia's legal system in the context of its legal reform and rapid development. It offers succinct commentaries on a wide range of issues, examining the judicial process, the constitution, corruption and the court system, contract law, administrative law, foreign investment, taxation, Islamic law, and family law. It examines current substantive law and judicial interpretation and presents case studies of how the system operates in practice. Written in an accessible and engaging style, this book is an essential guide for readers seeking quick and clear answers to questions regarding the law and its application in Indonesia.

This is an open access book. The year 2022 is the year when people begin to rise from the impact of the Covid 19 pandemic that occurred for approximately 2 years before this. During the pandemic there was a lot of weakening of activities in various sectors. The weakening led to the community's economy. The sports sector is also feeling the impact. Where all sports activities encounter obstacles such as sports competition activities, sports training, sports education and sports health services to the community. These obstacles have an impact on the economic decline of sports players. However, in 2022, all sporting activities are slowly restarting but still with due observance of health and safety protocols. Therefore, it is necessary to have discussions and access references to provide knowledge in starting activities in the sports sector after the Covid-19 Pandemic. Because indeed sports actors need to get mental support, knowledge and direction to start reviving sports activities in order to accelerate economic recovery. The Faculty of Sports Science, State University of Malang welcomes you to join the 6th International Conference on Sports Sciences and Health (6th ICCSH 2022). This conference focuses on how aspects of sport and health deal with issues in management,

technology and innovation of sports and education as well as in scientific issues. Collaboration and knowledge sharing will be a great opportunity to overcome potential challenges that grow dynamically following the development of sports after the Covid-19 Pandemic.

Proceedings of the International Conference  
on Sports Science and Health (ICSSH 2022)  
Springer Nature

This is an open access book. This proceedings  
consists of research presented in ICOSI UMY,  
on 20-21 July 2022 at Universitas  
Muhammadiyah Yogyakarta. The conference  
covers the topic of health sciences and nursing.  
The key lesson from the COVID-19 pandemic  
is that the goal of health innovation should be  
Health for All. To achieve this goal, health  
innovations must be regulated in such a way as  
to benefit as many people globally as possible.  
Some critical issues in the scope of improving  
medical education and medicine, biomedical  
science innovation, and increasing quality of  
public health for better life are discussed. The  
proceedings include articles from Dental  
sciences, Pharmaceutical sciences, and Nursing  
sciences. As technology developers focused on  
providing impactful solutions to global  
development challenges, we have learnt that  
technology alone cannot be a solution to the  
problem. It has to be seen in the context where  
the solution is applied. The world crisis should

globalization for the future years, one that prioritize collective investment in global public goods -including technological and ethical goods- to the benefit of all. Such global integration must enable diverse stakeholders from across the public, private, and non-profit sectors worldwide to work more effectively and sustainably together. The 6th International Conference on Sustainable Innovation 2022 brings out the issues of the Sustainable Innovation and Global Society. With the main theme of “Optimizing Global Benefit for Future Wellbeing”, this conference is trying to play a role as a vehicle of showcasing scientific works from around the world, not only from researchers, lecturers, government officers, students and all parties with the same interests alike. Finally, all 51 papers published in this proceedings are expected not only as research output but can be developed further into prototypes or evidence for policy making./div/div

Buku "Manajemen Mutu" menyajikan panduan komprehensif tentang konsep, prinsip, dan penerapan manajemen mutu dalam industri. Buku ini menguraikan sejarah dan evolusi manajemen mutu, mencakup perubahan dari pendekatan kualitas produk sederhana hingga manajemen mutu yang lebih kompleks dan terintegrasi. Prinsip

dasar seperti fokus pada kepuasan pelanggan, keterlibatan seluruh anggota organisasi, serta perbaikan berkelanjutan dijelaskan secara mendetail. Penekanan pada pentingnya manajemen mutu dalam industri modern membantu menjaga daya saing, meningkatkan efisiensi operasional, dan memenuhi ekspektasi pelanggan. Selain itu, buku ini juga membahas sistem manajemen mutu, terutama standar internasional seperti ISO 9001. Proses implementasi, dokumentasi, dan prosedur mutu dijelaskan secara rinci, memberikan panduan praktis untuk memastikan semua proses sesuai dengan standar dan dapat diaudit. Bagian terakhir, buku ini memperkenalkan Manajemen Mutu Total (TQM), yang melibatkan semua anggota organisasi dalam upaya perbaikan berkelanjutan. Contoh nyata, studi kasus, dan metode pengukuran kinerja mutu disajikan untuk menunjukkan penerapan praktis TQM dalam industri produk dan jasa, memberikan alat dan teknik untuk menilai efektivitas sistem manajemen mutu dan mengidentifikasi area perbaikan lebih lanjut

**Improving Health for Better Future Life: Strengthening from Basic Science to Clinical Research Cambridge University Press**

The proceedings of the Social and Humanities Research Symposium (SoRes) shares ideas, either research results or literature review, on islam, media and education in the digital era. Some recent issues consists of innovative education in the digital era, new media and journalism, islamic education, human wellbeing, marketing and

fintech in terms of islamic perspective, economic welfare, law and ethics. It is expected that the proceedings will give new insights to the knowledge and practice of social and humanities research. Therefore, such parties involved in social and humanities research as academics, practitioners, business leaders, and others will acquire benefits from the contents of the proceedings.

**Proceedings of the International Conference on Sustainable Innovation on Health Sciences and Nursing (ICOSI-HSN 2022) Joint Commission Resources**

The proceedings of the Medical and Global Health Research Symposium (MoRes) provides a selection of papers resulting from the conference, either research results or literature review, on advanced medical technology and environmental health in the era of industrial revolution 4.0. Nine major subject areas were presented in the this proceedings volume, comprising halal medicine: challenges and opportunities; infectious and non-infectious diseases; drug discoveries and development; community and occupational health; health policy and health insurance; hospital and nursing management; disaster relief and management; environment health and climate change; and digital and health technology. It is expected that the proceedings will give new insights into knowledge and practice of medicine and global health. Therefore, parties involved in medicine and global health such as academics, practitioners, business leaders, and others will benefit from the contents of the proceedings.

Nutrition Abstracts and Reviews Penerbit YLGI  
Understanding consumer behavior in today's digital landscape is more challenging than ever. Businesses must navigate a sea of data to discern meaningful patterns and correlations that drive effective customer engagement and product development. However, the ever-changing nature of consumer behavior presents a daunting task, making it difficult for companies to gauge the wants and needs of their target audience accurately. Enhancing and Predicting Digital Consumer Behavior with AI offers a comprehensive solution to this pressing issue. A strong focus on concepts, theories, and analytical techniques for tracking consumer behavior changes provides the roadmap for businesses to navigate the complexities of the digital age. By covering topics such as digital consumers, emotional intelligence, and data analytics, this book serves as a timely and invaluable resource for academics and practitioners seeking to understand and adapt to the evolving landscape of consumer behavior.

Spatial Data Analysis: Theory and Practice, first published in 2003, provides a broad ranging treatment of the field of spatial data analysis. It begins with an overview of spatial data analysis

and the importance of location (place, context and space) in scientific and policy related research. Covering fundamental problems concerning how attributes in geographical space are represented to the latest methods of exploratory spatial data analysis and spatial modeling, it is designed to take the reader through the key areas that underpin the analysis of spatial data, providing a platform from which to view and critically appreciate many of the key areas of the field. Parts of the text are accessible to undergraduate and master's level students, but it also contains sufficient challenging material that it will be of interest to geographers, social and economic scientists, environmental scientists and statisticians, whose research takes them into the area of spatial analysis.
