E T Westbury Engines - morganduke.org

December 30 1896, May 3 1970. Edgar T Westbury is rightly considered a pioneer of model and small internal combustion engine design. While his work is more commonly known in England and her "colonies" (Australia, South Africa, New Zealand, etc), his designs have been build in countless numbers the world over. Although "ETW" is renown for his IC designs, he wrote and published prolifically on steam power, nautical design, model engineering, and other allied topics.
