The Book of the Courtier Macmillan

A riveting account of Hurricane Katrina and a shocking tale of wrongful arrest and racism, *Zeitoun* is the true story of one Syrian-American, plucked from his home and accused of terrorism, written by one of America's most high-profile literary writers, now available for the first time in paperback from Vintage Canada. When Hurricane Katrina struck New Orleans, Abdulrahman Zeitoun, a prosperous Syrian-American and father of four, chose to stay through the storm to protect his house and contracting business. In the days after the storm, he traveled the flooded streets in a secondhand canoe, passing on supplies and helping those he could. A week later Zeitoun abruptly disappeared. Eggers's riveting nonfiction book, three years in the making, explores Zeitoun's roots in Syria, his marriage to Kathy — an American who converted to Islam — and their children, and the surreal atmosphere in which what happened to Abdulrahman Zeitoun was possible. Like *What Is the What*, *Zeitoun* was written in close collaboration with its subjects and involved vast research — in this case, in the United States, Spain, and Syria.

Our knowledge of the northern literature is so scanty, that of words undoubtedly Teutonic the original is not always to be found in any ancient language; and I have therefore inserted Dutch or German

substitutes, which I consider not as radical but parallel, not as the parents, but sisters of the English. The words which are represented as thus related by descent or cognation, do not always agree in sense; for it is incident to words, as to their authors, to degenerate from their ancestors, and to change their manners when they change their country. It is sufficient, in etymological enquiries, if the senses of kindred words be found such as may easily pass into each other, or such as may both be referred to one general idea. The etymology, so far as it is yet known, was easily found in the volumes where it is particularly and professedly delivered;

How the Other Half Lives The Creative Company

An authoritative history of the Russian Revolution and the "violent and disruptive acts" that created the first modern totalitarian regime, portraying the crisis at the heart of the tsarist empire "A deep and eloquent condemnation of the revolution and its aftermath." —The New York Times Drawing on archival materials released in Russia, Richard Pipes chronicles the upheaval that began as a conservative

revolt but was soon captured by messianic intellectuals intent not merely on reforming Russia but on remaking the world. He provides fresh accounts of the revolution's personalities and policies, crises, and cruelties, from the murder of the royal family through civil war, famine, and state terror. Brilliantly and persuasively, Pipes shows us why the resulting system owes less to the theories of Marx than it did to the character of Lenin and Russia's long authoritarian tradition. What ensues is a path-clearing work that is indispensable to any understanding of the events of the century.

The Philosophy of Composition Penguin

In one of the most powerful and darkly satirical works of the 18th century, a chilling solution is proposed to address the dire poverty and overpopulation plaguing Ireland. Jonathan Swift presents a shockingly calculated and seemingly rational argument for using the children of the poor as a food source, thereby addressing both the economic burden on society and the issue of hunger. This provocative piece is a masterful example of irony and social criticism, as it exposes the cruel attitudes and policies of the British ruling class towards the Irish populace. Jonathan Swift's incisive critique not only underscores the absurdity of the proposed solution but also serves as a

profound commentary on the exploitation and mistreatment of the oppressed. A Modest Proposal remains a quintessential example of satirical literature, its biting wit and moral indignation as relevant today as it was at the time of its publication. JONATHAN SWIFT [1667-1745] was an Anglo-Irish author, poet, and satirist. His deadpan satire led to the coining of the term » Swiftian « , describing satire of similarly ironic writing style. He is most famous for the novel Gulliver ' s Travels [1726] and the essay A Modest Proposal [1729].

Does My Head Look Big in This? Profile Books
Jack Worthing gets antsy living at his country estate. As an excuse, he spins tales of his rowdy brother Earnest living in London. When Jack rushes to the city to confront his "brother," he's free to become Earnest and live a different lifestyle. In London, his best friend, Algernon, begins to suspect Earnest is leading a double life. Earnest confesses that his real name is Jack and admits the ruse has become tricky as two women have become enchanted with the idea of marrying Earnest. On a whim, Algernon also pretends to be Earnest and encounters the two women as they meet at the estate. With two Earnests who aren't really earnest and two women in love with little more than a name, this play is a classic comedy of errors. This is an unabridged version of Oscar Wilde's English play, first published in 1899.

This fascinating literary essay, written by the famous American writer and poet, Edgar Allan Poe, explores the mystique of artistic creation.

By using his renowned poem 'The Raven' as an example, Poe explains how good writers write well, concluding that brevity, 'unity of effect' and a logical method are the most important factors. Taking the reader through the deliberate choices made when writing the poem, the author also discusses theme, setting, sound, and the importance of refrain. 'The Philosophy of Composition' (1846) is a perfect read for literary scholars, writers, and fans of Poe. Edgar Allan Poe (1809 – 1849) was an American writer, poet, editor and literary critic, best known for his gothic, macabre tales that include 'The Fall of the House of Usher', 'The Tell-Tale Heart', and 'The Murders in the Rue Morgue'. One of America's first short story writers, Poe is considered the inventor of detective fiction and a key figure in both horror and science fiction. His work had a profound impact on American and international literature and he was one of the first American writers to earn international recognition. His other notable works include 'The Raven and other Poems', (1845) 'The Cask of Amontillado', 'The Fall of the House of Usher', and 'The Tell-Take Heart'. With many of his stories adapted for TV and screen, including the gothic 2014 film 'Stonehearst Asylum', starring Kate Beckinsale, Michael Caine, and Ben Kingsley,

Poe continues to influence literature, film, and television to this day. Enhanced by examples with updated research results, the discussion covers such topics as: * The chemistry and biology of epothilones * Vancomycin and other glycopeptide antibiotic derivatives * Antitumor and other related activities of Taxol and its analogs * The antimalarial properties of the traditional Chinese medicine, Qinghaosu (artemisinin) * Huperzine A: A natural drug for the treatment of Alzheimer's disease * The medicinal chemistry of ginkgolides from Ginkgo biloba * Recent progress in Calophyllum coumarins as potent anti-HIV agents * Plant-derived anti-HIV agents and analogs * Chemical synthesis of annonaceous acetogenins and their structurally modified mimics Geometry Modernista Mathematics education will never truly improve until it adequately addresses those students whom the system has most failed. The 2018 volume of Annual Perspectives in Mathematics Education (APME) series showcases the efforts of classroom teachers, school counselors and administrators, teacher educators, and education researchers to ensure mathematics teaching and learning is a humane, positive, and powerful experience for students who are Black, Indigenous, and/or

Latinx. The book's chapters are grouped into three sections: Attending to Students' Identities through Learning, Professional Development That Embraces Community, and Principles for Teaching and Teacher Identity. To turn our schools into places where children who are Indigenous, Black, and Latinx can thrive, we need to rehumanize our teaching practices. The chapters in this volume describe a variety of initiatives that work to place these often marginalized students--and their identities, backgrounds, challenges, and aspirations--at the center of mathematics teaching and learning. We meet teachers who listen to and learn from their students as they work together to reverse those dehumanizing practices found in traditional mathematics education. With these examples as inspiration, this volume opens a conversation on what mathematics educators can do to enable Latinx, Black, and Indigenous students to build on their strengths and fulfill their promise.

My new friends have begun to suspect I haven't told them the full story of my life. "Why did you leave Sierra Leone?" "Because there is a war."

"You mean, you saw people running around with guns and shooting each other?" "Yes, all the time." "Cool." I smile a little. "You should tell us about it sometime." "Yes, sometime." This is how wars are fought now: by children, hopped-up on drugs and wielding AK-47s. Children have become soldiers of choice. In the more than fifty conflicts going on worldwide, it is estimated that there are some 300,000 child soldiers. Ishmael Beah used to be one of them. What is war like through the eyes of a child soldier? How does one become a killer? How does one stop? Child soldiers have been profiled by journalists, and novelists have struggled to imagine their lives. But until now, there has not been a first-person account from someone who came through this hell and survived. In *A Long Way Gone*, Beah, now twenty-five years old, tells a riveting story: how at the age of twelve, he fled attacking rebels and wandered a land rendered unrecognizable by violence. By thirteen, he'd been picked up by the government army, and Beah, at heart a gentle boy, found that he was capable of truly terrible acts. This is a rare and mesmerizing account, told with real literary force and heartbreaking honesty.
