Mrs. Flowers 24/7: Science Behind the Scene

The tiny town of Chewandswallow was very much like any other tiny town except for its weather which came three times a day, at breakfast, lunch and dinner. But it never rained rain and it never snowed snow and it never blew just wind. It rained things like soup and juice. It snowed things like mashed potatoes. And sometimes the wind blew in storms of hamburgers. Life for the townspeople was delicious until the weather took a turn for the worse. The food got larger and larger and so did the portions. Something has to be done in Chewandswallow...and in a hurry.

In his first book since the bestselling Fermat's Enigma, Simon Singh offers the first sweeping history of encryption, tracing its evolution and revealing the dramatic effects codes have had on wars, nations, and individual lives. From Mary, Queen of Scots, trapped by her own code, to the Navajo Code Talkers who helped the Allies win World War II, to the incredible (and incredibly simple) logistical breakthrough that made Internet commerce secure, The Code Book tells the story of the most powerful intellectual weapon ever known: secrecy. Throughout the text are clear technical and mathematical explanations, and portraits of the remarkable personalities who wrote and broke the world's most difficult codes. Accessible, compelling, and remarkably far-reaching, this book will forever alter your view of history and what drives it. It will also make you wonder how private that e-mail you just sent really is.

Don't panic - I'm Islamic! Amal is a 16-year-old Melbourne teen with all the usual obsessions about boys, chocolate and Cosmo magazine. She's also a Muslim, struggling to honour the Islamic faith in a society that doesn't understand it. The story of her decision to "shawl up" is funny, surprising and touching by turns.

Lizzie Bright and the Buckminster Boy Namaskar Book

Vivid, enjoyable and comprehensible, the poet and pre-eminent translator Stephen Mitchell makes the oldest epic poem in the world accessible for the first time. Gilgamesh is a born leader, but in an attempt to control his growing arrogance, the Gods create Enkidu, a wild man, his equal in strength and courage. Enkidu is trapped by a temple prostitute, civilised through sexual experience and brought to Gilgamesh. They become best friends and battle evil together. After Enkidu's death the distraught Gilgamesh sets out on a journey to find Utnapishtim, the survivor of the Great Flood, made immortal by the Gods to ask him the secret of life and death. Gilgamesh is the first and remains one of the most important works of world literature. Written in ancient Mesopotamia in the second millennium B.C., it predates the Iliad by roughly 1,000 years. Gilgamesh is extraordinarily modern in its emotional power but also provides an insight into the values of an ancient culture and civilisation.

This fascinating literary essay, written by the famous American writer and poet, Edgar Allan Poe, explores the mystique of artistic creation. By using his renowned poem 'The Raven' as an example, Poe explains how good writers write well, concluding that brevity, 'unity of effect' and a logical method are the most important factors. Taking the reader through the deliberate choices made when writing the poem, the author also discusses theme, setting, sound, and the importance of refrain. 'The Philosophy of Composition' (1846) is a perfect read for literary scholars, writers, and fans of Poe. Edgar Allan Poe (1809 - 1849) was an American writer, poet, editor and literary critic, best known for his gothic, macabre tales that include 'The Fall of the House of Usher', 'The Tell-Tale Heart', and 'The Murders in the Rue Morgue'. One of America's first short story writers, Poe is considered the inventor of detective fiction and a key figure in both horror and science fiction. His work had a profound impact on American and international literature and he was one of the first American writers to earn international recognition. His other notable works include 'The Raven and other Poem's', (1845) 'The Cask of Amontillado', 'The Fall of the House of Usher', and 'The Tell-Take Heart'. With many of his stories adapted for TV and screen, including the gothic 2014 film 'Stonehearst Asylum', starring Kate Beckinsale, Michael Caine, and Ben Kingsley, Poe continues to influence literature, film, and television to this day.

"Impressive . . . [Cristina Garc í a ' s] story is about three generations of Cuban women and their separate responses to the revolution. Her special feat is to tell it in a style as warm and gentle as the ' sustaining aromas of vanilla and almond, ' as rhythmic as the music of Beny Mor é . " —Time Cristina Garc í a ' s acclaimed book is the haunting, bittersweet story of a family experiencing a country ' s revolution and the revelations that follow. The lives of Celia del Pino and her husband, daughters, and grandchildren mirror the magical realism of Cuba itself, a landscape of beauty and poverty, idealism and corruption. Dreaming in Cuban is " a work that possesses both the intimacy of a Chekov story and the hallucinatory magic of a novel by Gabriel Garc í a M á rquez " (The New York Times). In celebration of the twenty-fifth anniversary of the novel ' s original publication, this edition features a new introduction by the author. Praise for Dreaming in Cuban " Remarkable . . . an intricate weaving of dramatic events with the supernatural and the cosmic . . . evocative and lush. " —San Francisco Chronicle " Captures the pain, the distance, the frustrations and the dreams of these family dramas with a vivid, poetic prose. " —The Washington Post " Brilliant . . . With tremendous skill, passion and humor, Garc í a just may have written the definitive story of Cuban exiles and some of those they left behind. " —The Denver Post

The virus kills nine out of ten of its victims. Its effects are so quick and so gruesome that even biohazard experts are terrified. It is airborne, it is extremely contagious, and it is about to burn through the suburbs of Washington, D.C. Is there any way to stop it? This doomsday scenario confronted a biohazard SWAT team struggling in secret to stop the outbreak of an exotic "hot" virus at an Army research facility outside Washington. "The Hot Zone" tells the dramatic story of their dangerous race against time, along with an alarming account of how previously unknown viruses that have lived undetected in the rain forest for eons are now entering human populations. From the airlocked confines of a biosafety level 4 military lab, to an airliner over Kenya carrying a passenger dissolving into a human virus bomb, to a deserted jungle cave alive with deadly virus, THE HOT ZONE is a non-fiction thriller like no other. "The Andromeda Strain" was fiction--- "this is real!"

Politics and the English Language Georgetown University Press

George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can – and must – be rediscovered with every age.' — Irish Times

Dreams and Dead Ends provides a compelling history of the twentieth-century American gangster film. Beginning with Little Caesar (1930) and ending with Things To Do In Denver When You're Dead (1995), Jack Shadoian adroitly analyzes twenty notable examples of the crime film genre. Moving chronologically through nearly seven decades, this volume offers illuminating readings of a select group of the classic films--including The Public Enemy, D.O.A., Bonnie and Clyde, and The Godfather--that best define and represent each period in the development of the American crime film. Richly illustrated with more than seventy film stills, Dreams and Dead Ends details the evolution of the genre through insightful and precise considerations of cinematography, characterization, and narrative style. This updated edition includes new readings of three additional movies--Once Upon a Time in America, Things To Do In Denver When You're Dead, and Criss Cross--and brings this clear and lively discussion of the history of the gangster film to the end of the twentieth century.

When Birds Get Flu and Cows Go Mad! Houghton Mifflin Harcourt

When Betty Friedan produced The Feminine Mystique in 1963, she could not have realized how the discovery and debate of her contemporaries' general malaise would shake up society. Victims of a false belief system, these women were following strict social convention by loyally conforming to the pretty image of the magazines, and found themselves forced to seek meaning in their lives only through a family and a home. Friedan's controversial book about these women - and every woman - would ultimately set Second Wave feminism in motion and begin the battle for equality. This groundbreaking and life-changing work remains just as powerful, important and true as it

was forty-five years ago, and is essential reading both as a historical document and as a study of women living in a man's world. 'One of the most influential nonfiction books of the twentieth century.' New York Times 'Feminism began with the work of a single person: Friedan.' Nicholas Lemann With a new Introduction by Lionel Shriver
