Sarah Morgan Dawson lived

in Baton Rouge, Louisiana, at the outbreak of the American Civil War. In March 1862, she began to record her thoughts about the war in a diary-- thoughts about the loss of friends killed in battle and the occupation of her home by Federal troops. Her devotion to the South was unwavering and her emotions real and uncensored. A true classic.

In this book, Dr. Billings shares the "secret sauce" which has made the Acellus Learning System a game changer for thousands of schools coast-to-coast. Acellus makes a science of the learning process. It contains tools to recover discouraged students and to accelerate the learning process. In these pages, the author shares the tools, the techniques, and the magic of Acellus that is changing education, discussing important aspects of the system:

- What is Acellus? - How does it work? - What happens when

a student gets stuck? - How does Acellus accelerate the learning process? Dr. Maria Sanchez, Chairman International Academy of Science

Carefully edited for modern readers to allow for easier reading Obsessed with the secret of creation, Swiss scientist Dr. Victor

Frankenstein cobbles together a body he's determined to bring to life. And one fateful night, he does. When the creature opens his eyes, the doctor is repulsed: his vision of perfection is, in fact, a hideous monster. Dr. Frankenstein abandons his creation, but the monster won't be ignored,

setting in motion a chain of violence and terror that shadows Victor to his death. Mary Shelley's *Frankenstein*, a gripping story about the ethics of creation and the consequences of trauma, is one of the most influential Gothic novels in British literature. It is as relevant today as it is haunting.

Thomas Hardy (2nd June 1840 – 11th January 1928)

was an English novelist and poet. He was influenced by Romanticism and it has been reflected in his novels and poetry. He was criticised by the Victorian society on the issue of the declining status of rural people in Britain. He was basically a poet. Initially he started writing poems. But he gained fame after his novels,

such as *Far from the Madding Crowd*, *The Mayor of Casterbridge*, *Tess of the d'Urbervilles* and *Jude the Obscure*. Two of his novels, *Tess of the d'Urbervilles* and *Far from the Madding Crowd*, were listed in top 50 on the BBC survey- *The Big Road*. The story of *Tess of the d'Urbervilles* revolves around a 16 year old very simple girl, named Tess Durbeyfield, who is the eldest daughter of John and Joan Durbeyfield. Since the family suffers acute financial crisis, so they approach the d'Urbervilles family who are holding huge land and having lot of money. There Tess meets Alec d'Urberville, who finds himself attracted to Tess. When Tess started working as a caretaker of Alec's blind mother's poultry farm, Alec gets an opportunity to rape her. After that there are many ups and down in Tess's life. She meets Mr. Crick for

another job. She also meets one more fellow Angel Clare, who is a travelling farmer's apprentice. They marry each other. But after knowing her story, again there is a turn in Tess's life. How she manages all such situation, how she meets all the financial aspects, lot of things happen with Tess. Even Alec and Angel both start searching for Tess. So, the story has become very interesting, full of climax. How Tess meets Alec or Angel? Whether she gets involved with any of these two again? There are so many presumptions. Readers will surely enjoy the story, full of suspense and never expected ups & downs in the life of all the characters. At last, how Angel helps Tess and her family is the climax. Go ahead and must grab the book. A must read book for self development and how to be a good leader.
National Health Education Standards Pan Macmillan

Ballistic Imaging assesses the state of computer-based imaging technology in forensic firearms identification. The book evaluates the current law enforcement database of images of crime-related cartridge cases and bullets and recommends ways to improve the usefulness of the technology for suggesting leads in criminal investigations. It also advises against the construction of a national reference database that would include images from test-fires of every newly manufactured or imported firearm in the United States. The book also suggests further research on an alternate method for generating an investigative lead to the location where a gun was first sold: "microstamping," the direct imprinting of unique identifiers on firearm parts or ammunition.
