scholars active in the complex field of distance education. Distance education has evolved significantly in its 150 years of existence. For most of this time, it was an individual pursuit defined by infrequent postal communication. But recently, three more developmental generations have emerged, supported by television and radio, teleconferencing, and computer

conferencing. The early 21st century has produced a fifth generation, based on autonomous agents and intelligent, database-assisted learning, that has been referred to as Web 2.0. An astonishing story that puts a human face on the ongoing debate about immigration reform in the United States, now updated with a new Epilogue and Afterword, photos of Enrique and his family, an author interview, and more—the definitive edition of a classic of contemporary

America Based on the Los Angeles Times newspaper series that won two Pulitzer Prizes, one for feature writing and another for feature photography, this page-turner about the power of family is a popular text in classrooms and a touchstone for communities across the country to engage in meaningful discussions about this essential American subject. Enrique’s Journey recounts the unforgettable quest of a Honduran boy looking for his mother, eleven years after she is forced to leave her starving family to find work in the United States.

Braving unimaginable peril, often clinging to the sides and

tops of freight trains, Enrique travels through hostile worlds full of thugs, bandits, and corrupt cops. But he pushes forward, relying on his wit, courage, hope, and the kindness of strangers. As Isabel Allende writes: “This is a twenty-first-century Odyssey. If you are going to read only one nonfiction book this year, it has to be this one.” Praise for Enrique’s Journey  
“Magnificent . . . Enrique’s Journey is about love. It’s about family. It’s about home.”—The Washington Post  
Book World “[A] searing report from the immigration frontlines . . . as harrowing as it is heartbreaking.”—People (four

stars) “Stunning . . . As an adventure narrative alone, Enrique’s Journey is a worthy read. . . . Nazario’s impressive piece of reporting [turns] the current immigration controversy from a political story into a personal one.”—Entertainment Weekly “Gripping and harrowing . . . a story begging to be told.”—The Christian Science Monitor “[A] prodigious feat of reporting . . . [Sonia Nazario is] amazingly thorough and intrepid.”—Newsday *The Time Traveler’s Guide to Elizabethan England* Anchor When Tom Shiftlet arrives on a farm owned by an old woman and her deaf daughter,

he is at first only interested in finding a place to stay in exchange for work. However, when the old woman offers her daughter Lucynell to him in marriage, along with a sum of money, he accepts, though his intentions towards the girl remain unclear. Similar in theme and style to many of other Flannery O’Connor’s short stories, “The Life You Save My Be Your Own” was originally published in O’Connor’s short story collection, *A Good Man Is Hard to Find*. A New Translation From  
The French By Marion  
Wiesel Born in Sighet,  
Transylvania, Elie Wiesel  
was a teenager when he  
and his family were taken  
from their home in 1944 and  
deported to the Auschwitz

important details and  
presents the most accurate

**The Dred Scott Case** Simon and Schuster  
"Fascinating.... Lays a

foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and ventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human

societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

Our nation's schools stand at an important "inflection point" in the history of education. Taken together, the implementation of common college and career standards, the shift to next generation assessments, the availability of affordable devices, and the growing

number of high-quality digital instructional tools create an unprecedented opportunity to fundamentally shift the education system to personalize learning around the individual needs of every student. Digital Learning Now! (DLN), a national initiative under the Foundation for Excellence in Education (ExcelinEd), in association with Getting Smart, brings "Navigating the Digital Shift: Implementation Strategies for Blended and

Online Learning" to readers interested in exploring the implementation challenges at the intersection of these shifts. Co-authored by John Bailey, Carri Schneider, and Tom Vander Ark, "Navigating the Digital Shift" offers updated versions of the eight papers originally released in the "DLN Smart Series" including contributions from 11 additional co-authors representing leading organizations such as

Public Impact, the International Association for K-12 Online Learning (iNACOL) and The Learning Accelerator. Topics include: blended learning implementation, teaching conditions and careers, competency-based learning, student data, online learning myths, and student-based funding. Jeb Bush, Governor of Florida from 1999-2007 and Chairman of ExcelinEd, contends that the book “provides policymakers and

education leaders the tools they need to use digital learning as a catalyst for improved student achievement.” AASA 2013 Superintendent of the Year Dr. Mark Edwards believes the collection “provides meaningful, practical, and poignant advice as well as commentary regarding the move to college and career ready standards associated with the shift to personal online learning and digital resources.” Rhode Island’s

Commissioner of Elementary and Secondary Education Deborah Gist describes the book as an “invaluable resource that will help educators re-imagine what our schools can look like and what our students can accomplish.” *American Government* Harvard Education Press A trenchant and wide-ranging look at this alarming national trend, *Disrupting the School-to-Prison Pipeline* is unsparing in its account of the problem while pointing in the direction of meaningful and much-

A fast-growing and disturbing development, it describes a range of circumstances whereby “children are funneled out of public schools and into the juvenile and criminal justice systems.” Scholars, educators, parents, students, and organizers across the country have pointed to this shocking trend, insisting that it be identified and understood—and that it be addressed as an urgent matter by the larger community. This new volume from the Harvard Educational Review features essays from</p> | <p>and community activists who are working to disrupt, reverse, and redirect the pipeline. Alongside these authors are contributions from the people most affected: youth and adults who have been incarcerated, or whose lives have been shaped by the school-to-prison pipeline.
