NOTE for 1982-1986 E30 Models . Due to the existing OEM chassis harness wiring age & it being inadequate to support a modern EFI system properly, 82-86 E30 orders will receive a self-contained version of the harness which utilizes a 5-relay Bussmann fuse block to integrate with ignition, fuel pump, two cooling fans and Auxiliary relays.

Techtips - BMW E30 Transmission Swaps - CarTech Books

Car has brand new custom wiring harness for the e30 2jz swap from wiringspecialties.com Manual radiator fan switch installed as I did not want to go through the hassle of checking to see if the thermostat worked or not (fuse box issue).

The standard when it comes to non-E30 swap. Whether its the simply grunty 2.5-litre M50 or the beefier 2.8 M52. all aspects are covered of fitting the next generation of six-pot rightness to your car.. On paper, there doesn't seem to be a huge difference in power between this generation of engine and its predecessor, the M20. But a basic horse-to-horse

(Taken from BMW 3-Series (E30) Performance Guide 1982-1994 by Robert Bowen) There are two main reasons to swap transmissions in an E30: to exchange one worn transmission for a better one or to change from an automatic to a manual (more preferred). FYI, the first scenario is easier. From Worn to Better

So instead of letting it die, we have rehosted a copy of this guide. Keep in mind, this was the original work of the e30dohc-swap.wikia website that is no longer hosted. All credi

E30 m50 swap wiring – Garagistic

This fizzy little four-banger features the same 1.8 litre displacement as the other E30 engines, but with double the valves (16 in all) to crank the power up to 140bhp. Combined with a simple drop-in swap procedure and easy-to-find spares from the E36, the M42 is the best engine swap to liven up the smaller-engined E30 models.
