Slow Car Fast: The Millennial Mantra Changing Car Culture for Good explores

the changing tides of car culture and re-examines the meaning of being a "car guy" in 2020. Veteran automotive journalist Ryan K. ZumMallen parses this world through the drivers, tuners and designers that live and breathe it against the fertile backdrop of Southern California. How did horsepower and speed get so out of control? Do young people still like cars? Who are the automotive icons that will shape car culture for years to come? Slow Car Fast offers answers to the questions on the mind of every kid who grew up with a poster on their wall and dreamed of owning their dream car one day, ferreted out through first-hand reporting on the ground. ZumMallen goes inside the automotive zeitgeist to explain how modern car culture came to be, from the old-school (massive improvements in engineering and technology) to the new-school (the rise of video games and social media). Featuring interviews with dozens of influential voices and ride-alongs in today's automotive unicorns, Slow Car Fast is a must-have eBook for anyone who knows that getting behind the wheel is only the beginning. **325i, 325xi, 328i, 328xi, 330i, 330xi, 335i, 335xi: 2006, 2007, 2008 2009** Veloce Publishing Ltd

Peanut Butter is a sad little fish. His best friend, Honey, just moved away. The two friends were perfect together, just like a peanut butter and honey sandwich. Now Honey is gone, and Peanut Butter needs a new friend-but how will he find one? Peanut Butter sets out on a thrilling adventure deep in the ocean to find a new best friend. He starts his journey by seeking out only the most beautiful fish in the sea and rejecting all others. Along the way, he encounters colorful characters like sharks, an angelfish, a moon snail, and many more. Peanut Butter soon realizes that if he wants real friendship, he'll have to look deeper and discover the beauty within other fish. If he can do that, perhaps he'll finally find the perfect friend. Join Peanut Butter on his big adventure, and share in the discovery of a vibrant undersea community. More importantly, swim along with him as he learns about the importance of true friendship.

Master's Thesis from the year 2014 in the subject Organisation and administration -

Public safety and order, Federal Rural University of Pernambuco, language: English, abstract: Based on the current literature this work introduces a new approach of criminal behavior. The model that will be presented regards the effects of the expected punishment as the main condition that drives the criminal behavior unto an optimal choice. Indeed, the criminal conduct must be induced primarily by two factors: The impunity feeling and the opportunities. This work aims to analyze whether the same relationship preached by the Broken Window Theory could be verified in a wider scenario with the interaction not only between minor serious crimes but also among several kind of different crimes and offenses. The determination of violent crimes, those related to the citizens' life, is viewed in this thesis as a function of the property crime, those related to the public and private property, and the policing enforcement. A mathematical model is also proposed as a framework that is able to explain this reality. Using a monthly crimes dataset provided by the Department of Public Safety of 10 jurisdiction around the world, it is developed a multiple regression analysis for the years of 2011-2014 in the city of São Paulo and it is estimated Spearman rank correlation and price elasticities for the crimes of nine from the 20 most violent cities of the world in order to validate the theatrical mathematical model proposed. I argue that the highest homicide rates in nine of 2013 ten most violent cities of the world are strongly correlated to the high levels of impunity in suppressing crimes against property in the short term. The conclusion states, as in the Broken Windows Theory, that once the offenses are committed in the majority by the same people, when the feeling of impunity arose due a low policing enforcement over the property crimes, these property crimes begins to decrease, giving rise

[A History of Production Cars and Tuner Specials, 1972–2008](#) Cartech

Unbeatable BMW is the comprehensive history of BMW competition from 1917 through 1997. The first edition of Unbeatable BMW became a cult classic among enthusiasts, but its coverage was restricted to the years 1959-79. Now, this astounding story has been massively expanded by the author in a hardcover format, richly illustrated in full color. Jeremy Walton weaves together the tale of BMW's engineering know-how, daredevil drivers, inimitable team leaders, and the cars they championed and drove to the winner's circle. Behind BMW's envied reputation and the whirling-propeller badge are such legends as the prewar BMW 328 sports cars and the 1990s 200 m.p.h. McLaren/BMW V12s. Unbeatable BMW also gives first-hand tales of BMW's aviation and motorcycling deeds. Included are gripping accounts of the preparation and track-side action for such emotive winners as the diminutive BMW 700 coupes to the 1800 "Tisa" and 2002s. Walton sweeps through the 1970s "Batmobile" 3.0 CSL lightweight racing coupes, then explores the best-selling 3-series in every race category. Walton also covers the unexpected success of the 5- and 6-series, the latter against Jaguar. Unbeatable BMW recalls the establishment of BMW's Motorsport division, and the thrill of the first M-Powered cars. From M1 onward, the author details the burgeoning M-brand, how MPower won the first world title for a turbocharged car (1983), and the years as the backbone of European Formula 2. The book's 582 pages are packed with detail to thrill the heart of the most ardent BMW fan, from meticulous photo captions listing car, driver, and race date, to six appendices covering the competition cars since 1960, drivers' accomplishments, and powerplant specifications. In short, if BMW has raced, rallied, or flown their products in competition, Unbeatable BMW gives the full, behind-the-scenes story in this compelling account of the marque's motorsports history.
