[BMW N52B30 engine reliability, problems and repair.](#) It is the first engine in the new N52 series which also includes N52B25. The N52B30 engine has 6 cylinders and is totally different from previous versions of M54B30. It is equipped by popular Double-VANOS camshaft and light-weight aluminum-magnesium block of cylinders, another crankshaft and lighter connecting rods and pistons.

**E60 N52 Engine Oil separator and other issues | Bimmerfest BMW** History, Power & Specs of the N52 Engine. There were 2 versions, the N52B25, and N52B30. The differences between these engines are the N52B25 has a smaller bore and stroke, so pistons, crank etc are different, but they share the same block and head. The N52 was a straight 6 NASP engine and won a Wards best engine award in 2007 and 2006. It also ...
