New York Times bestselling adult author of *The Bear and the Nightingale* makes her middle grade debut with a creepy, spellbinding ghost story destined to become a classic. Now in paperback. After suffering a tragic loss, eleven-year-old Ollie who only finds solace in books discovers a chilling ghost story about a girl named Beth, the two brothers who loved her, and a peculiar deal made with "the smiling man"—a sinister specter who grants your most tightly held wish, but only for the ultimate price. Captivated by the tale, Ollie begins to wonder if the smiling man might be real when she stumbles upon the graves of the very people she's been reading about on a school trip to a nearby farm. Then, later, when her school bus breaks down on the ride

home, the strange bus driver tells Ollie and her classmates: "Best get moving. At nightfall they'll come for the rest of you." Nightfall is, indeed, fast descending when Ollie's previously broken digital wristwatch begins a startling countdown and delivers a terrifying message: RUN. Only Ollie and two of her classmates heed these warnings. As the trio head out into the woods—bordered by a field of scarecrows that seem to be watching them—the bus driver has just one final piece of advice for Ollie and her friends: "Avoid large places. Keep to small." And with that, a deliciously creepy and hair-raising adventure begins.

The new edition of this landmark international work builds on the previous two volumes, offering a window onto occupational therapy practice, theory and ideas in different cultures and geographies. It emphasizes the importance of critically deconstructing and engaging with the broader context of occupation, particularly around how occupational injustices are shaped through political, economic and historical factors. Centering on the wider social and political aspects of occupation and occupation-based practices, this textbook aims to inspire occupational therapy students and practitioners to include transformational elements into their practice. It also illustrates how occupational therapists from all over the world can affect positive changes by engaging with

political and historical contexts. Divided into six sections, the new edition begins by analyzing the key concepts outlined throughout, along with an overview on the importance and practicalities of monitoring and evaluation in community projects. Section Two explores occupation and justice emphasizing that issues of occupational injustice are present everywhere, in different forms: from clinical settings to community-based rehabilitation. Section Three covers the enactment of different Occupational Therapies with a focus on the multiplicity of occupational therapy from the intimately personal to the broadly political. Section Four engages with the broader context of occupational therapy from the political to the financial. The chapters in this section highlight the recent financial crisis and the impact it has had on people's everyday life. Section Five collects a range of different approaches to working to enable a notion of occupational justice. Featuring chapters from across the globe, Section Six concludes by highlighting the importance and diversity of educational practices.

Comprehensively covers occupational therapy theory, methodology and practice examples related to working with underserved and neglected populations Gives a truly global overview with contributions from over 100 international leading experts in the field and across a range of geographical, political and linguistic contexts Demonstrates how occupational injustices are shaped through political, economic and historical factors Advocates participatory approaches which work for those who experience inequalities Includes a complete set of new chapters Explores neoliberalism and financial contexts, and their impact on occupation Examines the concept of disability Discusses theoretical and practical approaches to occupational justice

 NEW YORK TIMES BESTSELLER Jason M. Hough's pulse-pounding debut combines the drama, swagger, and vivid characters of Joss Whedon's *Firefly* with the talent of sci-fi author John Scalzi. In the mid-23rd century, Darwin, Australia, stands as the last human city on Earth. The world has succumbed to an alien plague, with most of the population transformed into mindless, savage

creatures. The planet's refugees flock to Darwin, where a space elevator—created by the architects of this apocalypse, the Builders—emits a plague-suppressing aura. Skyler Luiken has a rare immunity to the plague. Backed by an international crew of fellow “immunes,” he leads missions into the dangerous wasteland beyond the aura's edge to find the resources Darwin needs to stave off collapse. But when the Elevator starts to malfunction, Skyler is tapped—along with the brilliant scientist, Dr. Tania Sharma—to solve the mystery of the failing alien technology and save the ragged remnants of humanity.

Praise for *The Darwin Elevator* “A hell of a fun book.” —James S. A. Corey, New York Times bestselling author of *Abaddon's Gate* “[Jason M.] Hough's first novel combines the rapid-fire action and memorable characters associated with Joss Whedon's short-lived *Firefly* TV series with the accessibility and scientific acumen of [James S. A.] Corey's ‘*Expanse*’ series.” —Library Journal (starred review) “The best part about alien stories is their mystery, and Jason Hough understands that like no other. Full of compelling characters and thick with tension, *The Darwin Elevator* delivers both despair and hope along with a gigantic dose of wonder. It's a brilliant debut, and Hough can take my money whenever he writes anything from now on.” —Kevin Hearne, New York Times bestselling author of *The Iron Druid Chronicles* “Newcomer Hough displays a talent for imaginative plotting and realistic dialogue, and the brisk pacing and cliffhanger ending will keep readers enthralled and eagerly awaiting the next installment.” —Publishers Weekly “Jason M. Hough does a

great job with this huge story. The world of Darwin and the Elevator is deliciously complex and satisfying. Skyler, Tania, and all the other characters are delightfully drawn and fun to spend time with. . . . The story unfolds with just the right balance of high adventure, espionage, humor, and emotional truth. . . . As soon as you finish, you ' ll want more. " —Analog " A debut novel unlike any other . . . This is something special. Something iconic. The Darwin Elevator is full of majesty and wonder, mystery and mayhem, colorful characters and insidious schemes. " —SF Signal " Fun, action-packed and entertaining . . . a sure contender for science fiction debut of the year! " —Pat ' s Fantasy Hotlist " Claustrophobic, intense, and satisfying . . . I couldn ' t put this book down. The Darwin Elevator depicts a terrifying world, suspends it from a delicate thread, and forces you to read with held breath as you anticipate the inevitable fall. " —Hugh Howey, New York Times bestselling author of Wool

From the last decades of the nineteenth century through the late 1930s, the West Bohemian spa towns of Carlsbad, Franzensbad, and Marienbad were fashionable destinations for visitors wishing to "take a cure"—to drink the waters, bathe in the mud, be treated by the latest X-ray, light, or gas therapies, or simply enjoy the respite afforded by elegant parks and comfortable lodgings. These were sociable and urbane

places, settings for celebrity sightings, match-making, and stylish promenading. Originally the haunt of aristocrats, the spa towns came to be the favored summer resorts for the emerging bourgeoisie. Among the many who traveled there, a very high proportion were Jewish. In *Next Year in Marienbad*, Mirjam Zadoff writes the social and cultural history of Carlsbad, Franzensbad, and Marienbad as Jewish spaces. Secular and religious Jews from diverse national, cultural, and social backgrounds mingled in idyllic and often apolitical-seeming surroundings. During the season, shops sold Yiddish and Hebrew newspapers, kosher kitchens were opened, and theatrical presentations, concerts, and public readings catered to the Jewish clientele. Yet these same resorts were situated in a region of growing hostile nationalisms, and they were towns that might turn virulently anti-Semitic in the off season. *Next Year in Marienbad* draws from memoirs and letters, newspapers and maps, novels and postcards to create a compelling and engaging portrait of Jewish presence and cultural production in the years between the fin de siècle and the Second World War.

“Leapfrogging is as much about the secrets of breakthrough leadership as it is about business innovation . . . loaded with fresh ideas and examples.” —Hans Middag, Director, Learning and Development, Randstad In his trailblazing debut, Soren Kaplan gives business leaders the tools to do exactly what they’re taught to avoid: embrace surprise—the new key to business breakthroughs. Instead of fighting against uncertainty, Kaplan reveals how to use it to break down limiting mindsets and barriers to change the game. By highlighting specific ways to transform both good and bad surprises into unique opportunities, Kaplan encourages leaders to compete by embracing counterintuitive ideas, managing paradoxes, and even welcoming failure. This is the key to “leapfrogging” —creating or doing something radically new or different that

produces a significant leap forward. Leapfrogging connects new research, unconventional strategies, and practical tools for navigating the “messy” and elusive process of achieving business breakthroughs. Filled with real-world examples from innovators such as Gatorade, Intuit, Philips, Kimberly-Clark, Colgate-Palmolive, OpenTable, and Etsy, Kaplan shows that any organization or business function can leapfrog. Using his LEAPS process (Listen, Explore, Act, Persist, and Seize), leaders learn to seek out, recognize, and respond to surprising experiences and events as a way to create solutions that leap beyond the current expectations of customers, partners, employees, the market, and the competition. Kaplan’s Leapfrogging is the new handbook for the modern leader. “Superbly crafted, powerful in its simplicity, offering smart, actionable learning . . . Finally, a simple, holistic model that allows for breakthrough thinking and living.” —Mary Beth Robles, Vice President, Colgate-Palmolive “His campaigning for fearless innovation and flexibility is compelling.” —Publishers Weekly

LIAISONS is an innovative beginning-level French program firmly grounded in principles of communicative language teaching and research in second language acquisition. Components of the program are carefully linked together, showing students how they can make connections with their classmates, their instructor, their community, and the French-speaking world. With an engaging mystery film shot on location in Montreal, Quebec, and Paris, the program provides a rich array of communicative activities designed to stimulate interaction inside and outside the classroom. The underlying pedagogical framework in LIAISONS asks students to first discover new vocabulary and grammar through different mediums, then connect form and meaning through a set of confidence-building activities, and finally, actively create language. This book gives a compact exposition of the fundamentals of the theory of locally convex topological vector spaces. Furthermore

it contains a survey of the most important results of a more subtle nature, which cannot be regarded as basic, but knowledge which is useful for understanding applications. Finally, the book explores some of such applications connected with differential calculus and measure theory in infinite-dimensional spaces. These applications are a central aspect of the book, which is why it is different from the wide range of existing texts on topological vector spaces. Overall, this book develops differential and integral calculus on infinite-dimensional locally convex spaces by using methods and techniques of the theory of locally convex spaces. The target readership includes mathematicians and physicists whose research is related to infinite-dimensional analysis.

A spirited history of the changes that transformed Europe during the 1,000-year span of the Middle Ages: “A dazzling race through a complex millennium.”—Publishers Weekly The millennium between the breakup of the western Roman Empire and the Reformation was a long and hugely transformative period—one not easily chronicled within the scope of a few hundred pages. Yet distinguished historian Chris Wickham has taken up the challenge in this landmark book, and he succeeds in producing the most riveting account of medieval Europe in a generation. Tracking the entire sweep of the Middle Ages across Europe, Wickham focuses on important changes century by century, including such pivotal crises and moments as the fall of the western Roman Empire, Charlemagne’s reforms, the feudal revolution, the challenge of heresy, the destruction of the Byzantine Empire, the rebuilding of late medieval states, and the appalling devastation of the Black Death. He provides illuminating vignettes that underscore how shifting social, economic, and political circumstances affected individual lives and international events—and offers both a new conception of

Europe’s medieval period and a provocative revision of exactly how and why the Middle Ages matter. “Far-ranging, fluent, and thoughtful—of considerable interest to students of history writ large, and not just of Europe.”—Kirkus Reviews, (starred review)

Includes maps and illustrations

Perspectives on Henri Lefebvre Penguin

This book has two important merits. First it contains a unifying theory of what has been done in the direction of generalizing the notion of nuclearity, replacing the space \mathbb{I} by an arbitrary sequence space $[\text{lowercase Greek}] \Lambda$. Second, written very clearly, it is quite understandable for non-specialists, and can thus serve as a starting point for those who become interested in the subject. The book contains new material, gives answers to existing conjectures, and discusses several unsolved problems. It is indispensable for those who are doing research in this domain.

The Avant-Postman explores a broad range of innovative postwar writing in France, Britain, and the United States. Taking James Joyce's "revolution of the word" in *Ulysses* and *Finnegans Wake* as a joint starting point, David Vichnar draws genealogical lines through the work of more than fifty writers up to the present, including Alain Robbe-Grillet, B. S. Johnson, William Burroughs, Christine Brooke-Rose, Georges Perec, Kathy Acker, Iain Sinclair, Hélène Cixous, Alan Moore, David Foster Wallace, and many others. Centering the exploration around five writing strategies employed by Joyce—narrative parallax, stylistic metempsychosis, concrete writing, forgery, and neologising the logos—the book reveals the striking continuities and developments from Joyce's day to our own.

The Big Book of Lofts

The US Air Force is experiencing a profound shift! In order to aggregate the military's major space assets under one authority, they are being moved into a new branch under the purview of the Air Force. This new branch is to be called "Space Force". The true purpose of Space Force will be to publicly unveil the most well-guarded secrets in the Air Force's stunning arsenal of exotic

spacecraft, unconventional weapons and mind-blowing technologies assembled over the more than seventy years since its official emergence in 1947. This book lays out the history of the Air Force Secret Space Program: Ushering in a new era with the recovery of several extraterrestrial craft in the 1940's. Secret agreements with a breakaway German colony in Antarctica (the Fourth Reich) & different extraterrestrial groups in the 1950's. Its complicity in the German infiltration of NASA & the Military-Industrial Complex in the 1960's. Development of stealth space stations beginning from the 1970's. Deployment of squadrons of disk, triangle and rectangular-shaped craft in the 1980's & 1990's. After its 2016 discovery that it had been deceived by the Deep State and their shadowy Fourth Reich allies, Air Force leaders made the momentous decision to shift alliances and realigned their covert space program with human-looking extraterrestrials. This has led to bold steps being taken by the Air Force to reveal the existence of its arsenal of spacecraft to the US public.
