Letters Between a Catholic and an Evangelical Georg Olms Verlag
This booklet contains personal letters addressed to a parish priest of the Church of Rome, whose acquaintance I made on a railway journey. It was a pleasure to converse with this cultured gentleman. When we parted, he accepted from me a small volume dealing with a portion of holy scripture. Afterward he wrote me a very appreciative letter about the topics with which the book was concerned. There began a correspondence, which is being published with the hope that they may prove helpful to the reader.

Letter & Spirit, Vol. 11: "Our Beloved Brother Paul" - Reception History of Paul in Catholic Tradition Liturgical Press

Public Theology is an indispensable dimension of the calling of the church. As minister, bishop and academic teacher Heinrich Bedford-Strohm, in this collection of articles in English language, draws on a multitude of experiences in theological reflection as well as in pastoral praxis. The contributions of this volume include fundamental reflections on the role of churches and religion in the public sphere. But they also deal with issues of material ethics such as human rights, economic justice,

overcoming violence, ecology or interreligious dialogue. The volume shows how theology can give moral guidance not only for the church but also for society as a whole.

Liberation Theology for a Democratic Society : Essays in Public Theology Springer
Named Best Major Publication by Concordia Historical Institute During the anxiety-laden period from the Great Depression through World War II to the Cold War, Americans found a welcome escape in the new medium of radio.

Throughout radio's "Golden Age," religious broadcasting

in particular contributed significantly to American culture. Yet its historic role often has been overlooked. In **Ministers of a New Medium**, Kirk D. Farney explores the work of two groundbreaking leaders in religious broadcasting: Fulton J. Sheen and Walter A. Maier. These clergymen and professors—one a Catholic priest, the other a Lutheran minister—each led the way in combining substantive theology and emerging technology to spread the gospel over the airwaves.

Through weekly nationwide broadcasts, Maier's The Lutheran Hour and Sheen's Catholic Hour attracted listeners across a spectrum of denominational and religious affiliations, establishing their hosts—and Christian radio itself—as cultural and religious forces to be reckoned with. Farney examines how Sheen and Maier used their exceptional erudition, their sensitivity to the times, their powerful communication skills, and their unwavering Christian conviction, all for the purpose of calling the souls

of listeners and the soul of a nation to repentance and godliness. Their combination of talents also brought their respective denominations, Roman Catholicism and Missouri Synod Lutheranism, from the periphery of the American religious landscape to a much greater level of recognition and acceptance. With careful attention to both the theological content and the cultural influence of these masters of a new medium, Farney's study sheds new light on the history of media and Christianity in the United

States.

Certain Difficulties Felt by Anglicans in Catholic Teaching Considered: Letter addressed to the Rev. E.B. Pusey, D.D., on occasion of his Eirenicon. Letter addressed to the Duke of Norfolk, on occasion of Mr. Gladstone's recent expostulation
USCCB Publishing

This collection of essays engages with a variety of aspects of early modern book culture in the 16th-17th centuries, considered in the Catholic context. The contributions reflect on the engagement of institutions and authorities in the process of book production, bringing to

the fore the role of networks in this process; show the book as a tool of resistance to the Protestant Reformation; give insight into the content and design of book collections; showcase textual production in the context of cultural appropriation and shed light on the role of the image in the propagation of Catholicism. Together the sixteen contributions demonstrate the diversity of the Catholic book in its forms and functions, in various social and national contexts.

Die im vorliegenden Band versammelten Aufsätze analysieren die vielfältige Art und Weise, wie der Vatikan, die nationalen Kirchen und einzelne Katholiken mit dem Aufstieg der extremen Rechten in Europa während der 1920er, 1930er und frühen 1940er Jahre umgingen, vom Ende des Ersten Weltkriegs, der mit Recht als einer der wichtigsten Katalysatoren des europäischen Faschismus in der Zwischenkriegszeit gilt, bis zum Schluss und zu den unmittelbaren Nachwirkungen des Zweiten

Weltkriegs. Während einige Aufsätze sich auf theoretische, methodologische Probleme konzentrieren, beschäftigen sich die meisten Beiträge mit jeweils einem Land oder einer Region, wo eine faschistische Bewegung oder ein solches Regime zwischen den Kriegen und während des Zweiten Weltkriegs erfolgreich war, und wo es gleichzeitig eine signifikante katholische Präsenz in der Gesellschaft gab. Fast ganz Europa wird behandelt – ein beispielloses Unternehmen –, und eine

The papers presented in this volume analyse the many ways in which the Vatican, national Churches and individual catholics dealt with the rise of the extreme right in Europe throughout the 1920s, 1930s</p>	<p>and early 1940s, from the end of the First World War, arguably one of the main catalysts of European interwar fascism, to the conclusion and immediate aftermath of the Second World War. While a number of papers focus primarily on theoretical, methodological issues pertaining to the book ’ s general theme, the majority of papers focus on either a country or region where a fascist movement or regime flourished between the wars and during the Second World War, and where there was a</p>	<p>significant catholic presence in society. The various chapters cover almost the entire European continent – an endeavour that is unprecedented – , and they explore a wide range of relevant contexts and methodologies, thus further contributing to the general development of an interpretive ‘ cluster ’ model that incorporates a series of investigative matrixes, and that will hopefully inspire future research. <u>The Orthodox journal and Catholic monthly</u></p>

Paul's Letter to the Galatians has played a major role in the history of theology, especially in the Church's teaching on grace, faith, and justification. This commentary

argues that Paul's doctrine of justification by faith is essentially social in nature and has important ecumenical implications for the Church today. In its original setting, Galatians established a foundation for the unity of Jewish and Gentile Christians: all are justified by the faith of Jesus Christ. In addition to illuminating the historical situation that led Paul to write his Letter to the Galatians, this commentary pays careful attention to the rhetorical structure of this letter and its theological message. The author provides a fresh translation of Galatians, critical notes on each verse of the text, and a careful commentary of the letter in light of Paul's theology. Theories abound on the question of Galatians, why it

was written, what it says, and what the implications of that message are. Yet few scholars have devoted themselves at length to this letter. What sets this work apart is its extent and detail, and its academic rather than popular intent.

Hillman presents a fascinating account of the role that women played during the Catholic Reformation in France. She reconstructs the devotional practices of a network of powerful women showing how they reconciled Catholic piety with their roles as part of an aristocratic elite,

challenging the view that the Catholic Reformation was a male concern.
