EARLY CHILDHOOD EDUCATION NATIONAL BUREAU OF ECONOMIC RESEARCH

Research has proven that the early years in childhood is a critical period for opportunity to develop a child's full potential; as well as form academic, social, and cognitive skills that determine not only success in school but also their entire life (The White House).

Education Research Paper on Early

Childhood Education ... Paper: Observe 2
Early childhood education is formal schooling for children who are classified as early childhood. This classification usually refers to children who are between the ages of five and eight. This does not include learning that takes place within the home setting. Day cares and childcare centers do not necessarily qualify as early childhood education institutions; however, many have begun hiring certified teachers to put more emphasis on learning. This is a model introduction for a research paper.
