About | The Musings of an Author in Progress

Five years ago there actually was a horrible,  
horrible fire in this area. College kids had  
broken into the Tea Gardens (so named because  
this once belonged to Charlie Chaplan and he  
would take his tea in this part of the  
property), had a party and a fire and did not  
properly extinguish their fire before they  
left.

Earth (Elemental Series Book 1) is the second YA paranormal book that I have recently read that started out strikingly similar opening scenes to the story. Shauna Granger's way of writing draws the reader in further.

*Smashwords - Earth - a book by Shauna Granger*  
Earth (Elemental Series Book 1) is the second YA paranormal book that I have recently read that started out strikingly similar opening scenes to the story. Shauna Granger's way of writing draws the reader in further. Admittedly I would not be considered the market age range for this series. For the most part I liked it and plan to read book 2.
