Earth (Elemental Series Book 1) is the second YA paranormal book that I have recently read that started out strikingly similar opening scenes to the story. Shauna Granger lives in Southern California with her husband and goofy dog. Loving to cook and entertain she finds it odd taking comfort in the mundane while her imagination runs wild with thoughts of magic. Thanks to her addiction to overly sugared and creamed coffee Shauna is hard at work on the next Elemental Book: Air.

Five years ago there actually was a horrible, horrible fire in this area. ?Shayna and her two best friends have the ability to manipulate and control the four elements of earth, air, water and fire. While learning to hone their growing powers, they discover a new and malicious presence in their sleepy beach town. Someone is performing blood magic and threatens to expose th...
