Easy Steps to Chinese for Kids 3b (Workbook) (Simplified Chinese) Bei Jing Yu Yan Da Xue Chu Ban She/Tsai Fong Books  
One of the most misunderstood periods in American history, Reconstruction remains relevant today because its central issue -- the role of the federal government in protecting citizens' rights and promoting economic and racial justice in a heterogeneous society -- is still unresolved. America's Reconstruction examines the origins of this crucial time, explores how black and white Southerners responded to the abolition of slavery, traces the political disputes between Congress and President Andrew Johnson, and analyzes the policies of the Reconstruction governments and the reasons for their demise. America's Reconstruction was published in conjunction with a major exhibition on the era produced by the Valentine Museum in Richmond, Virginia, and the Virginia Historical Society. The exhibit included a remarkable collection of engravings from Harper's Weekly, lithographs, and political cartoons, as well as objects such as sculptures, rifles, flags, quilts, and other artifacts. An important tool for deepening the experience of those who visited the exhibit, America's Reconstruction also makes this rich assemblage of information and period art available to the wider audience of people unable to see the exhibit in its host cities. A work that stands along as well as in proud accompaniment to the temporary collection, it will appeal to general readers and assist instructors of both new and seasoned students of the Civil War and its tumultuous aftermath.

Learn Mandarin Chinese Workbook for Beginners: 2 Books in 1 Holiday House

This book offers historical, philosophical, and sociocultural perspectives on Chinese language education for speakers of other languages with a special focus on Chinese language education in the United States. It provides a comprehensive, cross-disciplinary look at changes in CFL/CSL education over time in China and the U.S. and the philosophical, political and sociocultural influences that led to these changes. The essays address a wide array of topics related to Chinese language education, including: A historical overview of the field Theories that apply to CFL/CSL learning Policies and initiatives for CFL/CSL by the Chinese and U.S. governments Medium of instruction Curriculum and instruction for CFL/CSL learners at K-12 and college levels Technology for CFL/CSL education Chinese language learning for heritage learners CFL in study abroad contexts CFL teacher education and training This work is essential reading for scholars and students interested in gaining a greater understanding of Chinese language education in the two countries and around the world.

David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.
