Combining classic international economics with straight-from-the-headlines immediacy, Feenstra and Taylor's text seamlessly integrates the subject's established core content with topic areas and ideas that have emerged from recent empirical studies. A MODERN APPROACH FOR THE 21ST CENTURY International economics texts traditionally place greater emphasis on theory and a strong focus on the advanced countries. Feenstra/Taylor links theory to empirical evidence throughout the book, and incorporates coverage of emerging markets and developing economies (India, China, SE Asia) to reflect the evolving realities of the global economy. The new edition has been extensively revised and updated, especially in light of the ongoing world financial crisis.
