This is a study of how Greek and Latin writers describe curious, meddlesome, and exaggerated behavior. Founded on a family of Greek terms, and the Latin words used to describe them, Leigh surveys how they were used in Greek literature from the 5th and 4th centuries BC and their Latin usage in relation to Hellenistic and imperial Greek.

The Getty Museum's collection of drawings was begun in 1981 with the purchase of a Rembrandt nude and has since become an important repository of European works from the fifteenth through the nineteenth century. As in the first volume devoted to the collection (published in 1988 in English and Italian editions), the text is here organized first by national school, then alphabetically by artist, with individual works arranged chronologically. For each drawing, the authors provide a discussion of the work's style, dating, iconography, and relationship to other works, as well as provenance and a complete bibliography.

Latin for the New Millennium: Level 2: student text Albert Whitman & Company

Two major Jewish risings against Rome took place in the years following the destruction of Jerusalem - the first during Trajan's Parthian war, and the second, led by Bar Kokhba, under Hadrian's principate. The impact of these risings not only on Judaea, but also on Cyrene, Egypt, Cyprus and Mesopotamia, is shown by accounts in both ancient Jewish and non-Jewish literature. More recently discovered sources include letters and documents from fighters and refugees, and inscriptions attesting war and restoration. Historical evaluation has veered between regret for a pointless bloodbath and admiration for sustained resistance. William Horbury offers a new history of these risings, presenting a fresh review of sources and interpretations. He explores the period of Jewish war under Trajan and Hadrian not just as the end of an era, but also as a time of continuity in Jewish life and development in Jewish and Christian origins.

A Copious and Critical Latin-English Lexicon
Founded on the Larger Latin-German Lexicon of Dr. William Freund ... Yale University Press

In an expansion of his 2012 Robson Classical Lectures, Clifford Ando examines the connection between the nature of the Latin language and Roman thinking about law, society, and empire. Drawing on innovative work in cognitive linguistics and anthropology, Roman Social Imaginaries considers how metaphor, metonymy, analogy, and ideation helped create the structures of thought that shaped the Roman Empire as a political construct. Beginning in early Roman history, Ando shows how the expansion of the empire into new territories led the Romans to develop and exploit Latin's extraordinary capacity for abstraction. In this way, laws and institutions invented for use in a single Mediterranean city-state could be deployed across a remarkably heterogeneous empire. Lucid, insightful, and innovative, the essays in Roman Social Imaginaries constitute some of today's most original thinking about the power of language in the ancient world.

A Grammar of the Latin Language from Plautus to Suetonius Addison Wesley Longman
In 1638, a small book of no more than 92 pages in octavo was published "appresso Gioanne Calleani" under the title "Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice." It was dedicated to the Doge of Venice and his counsellors, who are labelled "lovers of Truth." The author of the book was a certain Simone (Sim?o) Luzzatto, a native of Venice, where he lived and died, serving as rabbi for over fifty years during the course of the seventeenth century. Luzzatto's political thesis is simple and, at the same time, temerarious, if not revolutionary: Venice can put an end to its political decline, he argues, by offering the Jews a monopoly on overseas commercial activity. This plan is highly recommendable because the Jews are "wellsuited for trade," much more so than others (such as "foreigners," for example). The rabbi opens his argument by recalling that trade and usury are the only occupations permitted to Jews. Within the confines of their historical situation, the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries. Luzzatto's argument is that this

talent could be put at the service of the Venetian government in order to maintain - or, more accurately, recover - its political importance as an intermediary between East and West. He was the first to define the role of the Jews on the basis of their economic and social functions, disregarding the classic categorisation of Judaism's alleged privileged religious status in world history. Nonetheless, going beyond the socio-economic arguments of the book, it is essential to point out Luzzatto's resort to sceptical strategies in order to plead in defence of the Venetian Jews. It is precisely his philosophical and political scepticism that makes Luzzatto's texts so unique. This edition aims to grant access to his works and thought to English-speaking readers and scholars. By approaching his texts from this point of view, the editors hope to open a new path in research into Jewish culture and philosophy that will enable other scholars to develop new directions and new perspectives, stressing the interpenetration between Jews and the surrounding Christian and secular cultures.

A Copious and Critical Latin-English
Lexicon BRILL

"Latin for the New Millennium, Levels 1 and 2 is a complete introductory course to the Latin language, suitable for both high school and college students, consisting of two volumes, each accompanied by a teacher's manual and students' workbooks. The strategy employed for teaching and learning incorporates the best of both the reading approach and the more abstract grammatical method. The choice of vocabulary in each chapter reflects ancient authors commonly studied for the AP Latin examinations. There are exercises designed for oral use, as well as a substantial core of more conventional exercises in each chapter. The readings, pictures, and supplementary inserts on cultural information illuminate Roman life, civilization, Roman history, and mythology, as well as the continuing use of Latin after antiquity and its vigorous literary tradition in such periods as the Middle Ages and Renaissance. Each chapter also includes derivatives, the influence of Latin vocabulary on English, and selected proverbs or common Latin sayings. Latin for the New Millennium Level 3 builds on the strong foundation of Levels 1 and 2 and provides students an in-depth experience of Caesar, Catullus, Cicero, Horace, Ovid, and Vergil as well as of the Renaissance writer Erasmus. This text provides students an introduction to unadapted Latin literature and builds their literary analysis skills."--adapted from publisher website.
