A Latin reader like no other. Legonium is both a town and a tale. It is a town built entirely from LEGO® bricks, and filled with an incredible cast of characters. There is Marcellus, the struggling artist; Augustus, the bank manager; Miranda, the police officer; Monas Bricvir, the private detective; plus a suspicious character spotted on the roof of the town bank; and, of course, Pico, the cat. And it is a tale told completely in Latin, with a full range of grammatical structures, repetition of vocabulary, hundreds of pictures, and a supplementary English translation. There is a police chase, a trip to Pompeii, a talkative parrot, and a mysterious suitcase.

Latin Cambridge University Press

The title of this series of Latin books is Ecce Romani, which means "Look! The Romans!" The books in the series will present the Romans to you as you learn the Latin language that they spoke. At first you will meet the members of a Roman family; Latin is the language they use to communicate among themselves. As you continue reading you will meet mythological and historical characters that meant much to the Romans and remain part of our cultural heritage today. You will be introduced to a vast and colorful world of ancient Mediterranean and European civilizations that included peoples who spoke many different languages, and you will meet people of many different cultures and social levels, ranging from slaves to emperors. You will read passages from many ancient Roman writers and thus come into direct communication with the ancient Romans themselves. - Introduction.

A prominent lawyer and administrator, Pliny (c. AD 61-113) was also a prolific letter-writer, who numbered among his correspondents such eminent figures as Tacitus, Suetonius and the Emperor Trajan, as well as a wide circle of friends and family. His lively and very personal letters address an astonishing range of topics, from a deeply moving account of his uncle's death in the eruption that engulfed Pompeii, to observations on the early Christians - 'a desperate sort of cult carried to extravagant lengths' - from descriptions of everyday life in Rome, with its scandals and court cases, to Pliny's life in the country.

Conversational Latin for Oral Proficiency Ignatius Press

From the Preface: Most Americans who have studied Latin, with our priests and seminarians included, have employed this method, which they thought was 'traditional'. But as something fully developed, this tradition scarcely goes farther back than 1880; and even in its beginnings it hardly antedates the seventeenth century. In contrast to this method of grammatical analysis, Father Most's textbooks reproduce much of the "natural method" by which children learn their native language. Hence, the significance of Father Most's books is manifestly great for the Latin classes in any Catholic high schools or colleges. So much of our Catholic doctrine and culture have been deposited in Latin that we want many of our educated Catholics to be able to use Latin with ease. But the special significance of Father Most's texts is for the Latin classes in our seminaries. Here the students still have much the same cogent motives to master the art of using Latin with ease as the pupils of the thirteenth or sixteenth century. They need it as an indispensable means of communicating thought in their higher studies, and afterwards throughout life. The objectives (knowledge about Latin and training of mind) and corresponding methods (grammatical analysis and translation) "traditional" since 1880 have taken over in our seminaries; and there too the students have been experiencing an ever growing inability to use Latin. Father Most's textbooks can contribute much towards revolutionizing the teaching of Latin by bringing back, as the chief objective, the art of reading, writing, and (when desired) speaking Latin with ease." Fr. Most's textbooks can be classed in categories of similar texts, such as Hans Ørberg's *Lingua Latina*, as well as Ecce Romani which is a simplification of Ørberg or others which aim to teach Latin not even so much as a modern language, as to teach it by a method more natural to the philosophy of learning Languages. Fr. Most's text, however, is tailored to a Christian perspective. The work begins with readings in Roman History bringing in simple sentences and gradually building up the student with additions of vocabulary to reading accounts of Scripture, Ancient Egypt, Gilgamesh as well as amusing tales with a parrot. This is an excellent text applying the "natural method" with English language instruction to help the student read and understand Latin natively, with numerous vehicles for simplifying the necessary memorization as well as aiding in truly understanding Latin without constant need to look in a dictionary for rudimentary sentences. This is the second edition, correcting certain errors in the original. The reprint is from the 1960 edition, and follows the presentation of the text found in that edition.

Learning disabilities are among the most common disabilities experienced in childhood and adulthood. Although identifying learning disabilities in a school setting is a complex process, it is particularly challenging in low- and middle-income countries that lack the appropriate resources, tools, and supports. This guide provides an introduction to learning disabilities and describes the processes and practices that are necessary for the identification process. It also describes a phased approach that countries can use to assess their current screening and evaluation services, as well as determine the steps needed to develop, strengthen, and build systems that support students with learning disabilities. This guide also provides intervention recommendations that teachers and school administrators can implement at each phase of system development. Although this guide primarily addresses learning disabilities, the practices, processes, and systems described may be also used to improve the identification of other disabilities commonly encountered

in schools.
