NTE Semiconductors Cross Reference Guide  
ECG, NTE, and SK are lines of universal  
replacement semiconductors. The underlying  
concept is that each ECG, NTE, or SK numbered  
device can replace a group of other  
semiconductors. For example, the single most  
popular ECG and NTE transistor, the 123AP,  
replaces thousands of different OEM and industry  
standard part numbered transistors. When the  
Delco DTS line of power transistors were  
discontinued, SIE began using the ECG165 in  
their 300 volt downhole power supplies (the later
