Teaching Economics The Princeton Review
This book focuses upon the development of economics at Oxford after the establishment of PPE and the contributions of Oxford economists during the 'years of high theory' and afterwards. Students' recollections of tutorials and lectures, and their tutors and lecturers, along with examination questions and results, amongst other aspects of teaching at Oxford, are presented here for the first time. In addition, the many contributions of Oxford economists such as Harrod, Allen, Andrews, Hicks, Meade, Richardson and Steindl, including the staff of the Oxford Institute of Statistics, along with the story of the Institute itself, are dealt with. Unpublished correspondence, memoranda and papers are collected at various archives are cited to show that Oxford's contribution to the development of economics was equal to that of Cambridge. **Edexcel a Level Economics Exam Question Practice Pack** Oswaal Books and Learning Private Limited
This book brings together leading scholars in the field to provide insights on economics of education. The book begins with an overview of education and human capacity development and looks at the production of education through individuals' learning, education financing and the role of individual circumstances. It also analyses the complex relationship between education and mobility and highlights what key challenges for education systems in a global world are. Each chapter provides detailed analysis of interesting and policy relevant topics in the fields of education economics and human capacity development. This book is a useful reference for those who wish to understand the changing landscape and models of higher education in the context of digital advances and innovation. It will also be of interest to those in the areas of education and training.
