Humanity's insatiable desire for knowledge can be summed up in one idea: We have an inherent

need for Contact. Whether it's physical, spiritual or intellectually, we need contact in order to grow and learn. Mankind has demonstrated time and again that when we work together, we can achieve wondrous-or terrible-objectives. 6 Points of Contact is an anthology unlike any other. The stories are as varied and unique as each of the writers, cutting across several sub-genres of science fiction and fantasy for a

well-rounded, entertaining collection. All proceeds from the sale of this anthology go towards charities in the US and UK to benefit wounded veterans and their families.

Biology Plus Gill Education

In 1998, the thought of launching a startup in San Antonio was ludicrous-but that didn't stop Rackspace's founders from planting their flag in the heart of Texas. Just over two decades later, the scrappy little underdog that no one believed in is a billion-dollar business with more than 6,000 employees worldwide. One of the first ten account managers hired at Rackspace was Lorenzo Gomez. He was there when the company became the host for YouTube and saw the decade-long stretch where each month brought one-hundred new hires. The rocket ship growth was exhilarating but exposed Rackspace's early flaws, including avoiding customers at all costs. When the mission shifted to becoming one of the world's greatest service companies, everything changed. Suddenly, Rackspace had a rallying cry-"fanatical support"-and a culture that few

companies could match. ? The Rack We Built is Lorenzo's recollections from those days, told only as he can tell it: through stories packed with style, heart, and humor. With the principles in the book, you can create the type of culture that makes people want to volunteer their best.

The year is 1849, and the future state of California is under the control of former soldiers from the Mexican-American War. Their leader,

General Gomez, is busy buying up the locals' land for pennies on the dollar, so that he and his cronies can maximize their profits from the coming gold rush. But he and his men are dogged by a series of masked, would-be avengers all calling themselves Zorro. They are an almost laughable annoyance, simple peasants living out the fantasy of a local legend. Until one man shows up and starts picking off Gomez's men one by one, as stealthy as a fox. He brandishes a sword which he uses to carve the letter Z into his victims' cheeks... Could this be the true Zorro?

Religion for Living

International experts provide a comprehensive picture of the principles, concepts and methods that are applicable to problems originating from the interaction between the living/non-living environment and mankind.

Both the analysis of such problems and the way solutions to environmental problems may work in specific societal contexts are addressed. Disciplinary approaches are discussed but there is a focus on multi- and interdisciplinary methods. A large number of practical examples and case studies are presented. There is special emphasis on modelling and integrated assessment. This book is different because it stresses the societal, cultural and historical dimensions of environmental problems. The main objective is to improve the ability to analyse and conceptualise environmental problems in context and to make readers aware of the value and scope of different methods. Ideal as a course text for students, this book will also be of

interest to researchers and consultants in the environmental sciences.

New Appreciating Art

The trafficking of wildlife is increasingly recognized as both a specialized area of organized crime and a significant threat to many plant and animal species. The World Wildlife Crime Report 2016 takes stock of the present wildlife crime situation with a focus on illicit trafficking of specific protected species of wild fauna and flora, and provides a broad assessment of the nature and extent of the problem at the global level. It includes a quantitative market assessment and a series of in-depth illicit trade case studies.
