interpretation so that students understand precisely what they need to understand and learn, the skills required and the potential pitfalls. A Question and Answer section provides graded answers, typically A and C, to questions which have been set to reflect the style of the unit. All responses are accompanied by commentaries which highlight their respective strengths and weaknesses, giving students an insight into the mind of the examiner.

This comprehensive, highly accessible, exam-focused text is essential reading for all Edexcel AS Chemistry students. Revised and updated to meet the needs of AS students following the Edexcel specification, this textbook is divided into three units. The first seven chapters describe and explain the material of Unit 1: The core principles of chemistry. The next nine chapters cover the material for Unit 2: Application of core principles of chemistry. The final chapter (Unit 3) focuses on

practical work. This will help students prepare for their internal assessment of practical skills. - Integrated material on 'how science works' throughout the text - End-of-chapter review questions and practice unit tests test knowledge and provide exam preparation - Worked examples give detailed explanations of calculations to facilitate understanding - Online sample exam-style questions, with graded answers and commentaries give you a benchmark to compare your answers against

Burnside, Duffy, Dunmore, Fanthorpe, Heaney, Motion, Nagra, O'Brien and more Poems of the Decade brings together more than one hundred poems from the many thousands submitted to the Forward Prizes for Poetry in the first decade of the 21st century. The Forwards are among the world's most coveted poetry honours. They have been awarded annually since 1992 for the Best Collection, Best First Collection and Best Single Poem published in Britain and Ireland, and the roster of winning, shortlisted and highly commended poets regularly juxtaposes familiar canonical names with fresh voices. This anthology of anthologies draws on the ten Forward Books of Poetry published to accompany the prizes between 2001 and 2010. It is the perfect introduction to a wide range of contemporary poetry: works that speak of violence, danger and fear, of love and all that opposes love, in forms of language broken and reshaped by the need to communicate what it is to be alive now, here. These annual anthologies of the poems in the running for the Forward Prizes remain the best way of encountering the richness that new poetry has to offer.'
